Dear

I have received your letter of Cctober 9, 1960, regarding the pamphlet, "Communist Target--Youth," and appreciate the thoughtfulness which prompted you to write.

Your expression of confidence is most encouraging, and I hope we will continue to merit your support.

In view of your concern over the menace posed by communism, I am enclosing some material which may be of interest to you.

Dear Mr. Hoover:

Youth from my Representative, James B. Utt, after writing him about the concern I felt for the San Francisco riots. I thought this an excellent report and feel as you do that it should be read by every American. Only through the understanding of how the communists organize will we, the people, be able to assist you in the wonderful work you are doing, rather than be defeated without ever realizing "how it happened".

You are doing a great deal to help restore the confidence of the people in government leadership. Thank you so much.

Your letter of October 10, 1969, has been received, and the interest which prompted you to write is indeed appreciated. It is a pleasure for me to comply with your request.

"Operation Abolition" is distributed by the House Committee on Un-American Activities and is a graphic account of the communist-inspired San Francisco riots, which are also detailed in the publication, "Communist Target--Youth." I certainly believe that this film should be seen by every thinking American, for it illustrates communism at work, carrying out its mandate of subverting our free society. I suggest that every Oak Meadows citizen would do well to take advantage of the opportunity to view this most important film.

I want to wish your Civic Club the very best of success in the program you have undertaken, and in response to your request, I am pleased to forward, under separate cover 500 copies of "Communist Target -- Youth, "

Dear Mr. Hoover:

At our next scheduled meeting, November 10, 1960, we are showing the film, "OPERATION OBOLITION", which I'm sure you are familiar with. We are pulling all stops in publicizing this film. With this in mind, it was suggested that, possibly an open letter from you, to the people of Oak Meadows, stating the importance of this film would be, the stimulus needed to awaken the people to the facts concerning communism in the United States. It was further suggested, that if this letter is forthcoming, the Club could duplicate this open letter and distribute it to all the homes in this area.

In addition to the above request, we would appreciate, by return mail, 500 copies of the pamphlet titled "COMMUNIST TARGET - YOUTH" which will be distributed at the showing of the film.

We realize that these requests are not timely, in that, the above information must be in our hands at least one week prior to our November 10, meeting. However, we will appreciate any effort made by you in helping us to make this a successful meeting.

Thank you for your time and consideration.

#### Dear Mr Hoover:

I was very much interested in the report published by the House Committee on Un-American Activities giving your statement to them entitled, "Communist Target -Youth".

This is a very clear statement of the methods used by the Communists in invading the campus. The description of the San Francisco riot reveals a situation that is so ominous that every right-thinking citizen must be greatly distrubed.

The wide distribution of this pamphlet is important, and I believe that the way you have presented the facts is a great service to the American people.

Dear Mr. Hoover,

Would you please send me 100 copies of your 18 page pamphlet: Communist Target: Youth. We have two colleges here in the city of Denton and I am trying to acquaint our Catholic students with this terrible menace.

If you have any other periodicals or information that would be helpful to me, I would be deeply grateful for it. The Cardinal Mindszenty Foundation in St. Louis, Missouri is doing a magnificent job in informing the public about the dangers of Communism.

May God continue to bless you and to help you in the wonderful and important work you are doing.

The copies of "Communist Target----Youth" arrived this week.

I find it difficult to convey to you the depth of our heartfelt thanks. We appreciate it so very much.

We were able to purchase the film, "Operation Abolition", and due to the cost, it would have been difficult to purchase any large quantities of this document. We have already shown the film twice, and have two other reservations. Another encouraging sign is the possibility of two new teen-age study groups. So many of the young people are truly concerned. In fact, much more so than the majority of adults.

I am enclosing a clipping from the St. Louis Globe Democrat. I'm sure it will come as no surprise to you. The reaction of the audience was both shocking and frightening. We're hoping to find a way to counter-act meetings such as these, and the deceitful ideas they are trying to implant.

May we thank you again for all of your invaluable assistance.

Dear
I just yesterday received your interesting pamphlet "Communist Target - Youth" Which describes Mr. J. Edgar Hoover's report on the communist attempt to break-up the San Francisco hearings of the Committee on Un-American Activities. I had not known of the existence of this pamphlet before. I do not know what prompted you to mail this to me at this time, but it is a strange thing that it is helpful to some of the studies we are now conducting here in the Inter-American Defense Board. The fact that it was sent from a private American citizen helps me in furnishing it to members of the Board from Latin American countries.
It is probable that I will meet Mr. Hoover in the near future since the Inter-American Defense Board is visiting the Federal Bureau of Investigation early in December. At that time I will personally inform him of the value of this report.
It was good to see your name again.  the youngsters and I recall the pleasant time we had when you visited us at Casa Blanca in Puerto Rico. We send sincere best wishes to you and

My Dear Friend :				
If you have them to spare please mail about 20 additional copies of "COM-UNIST TARGET — YOUTH " . I deeply appreciate the one copy which you mailed me recently.				
The very sad part of this whole story is that our citizens still do not believe that we have Communists right here in our community and working hard at their tasks of averthrowing our government. Let me refer you to page 10 of this pamphlet, under the sub-heading of Conclusion, quote: "Infact, it is impossible to stand idly by in the face of the challange that this Communist success represents." Do you know that on March 19 and 20th. of this year, the University of Cincinnati entertained for its freshmen students, a Communist Front sympathizer? On Sunday, March 20th., this same character addressed an adult group in a protestant church in Glendale? Yes, Justin, I am well aware of Communism right here in Cincinnati. But when you talk about this subject to Mr. Average Citizen, he thinks you are a NUT.				
My family tree goes back for more than one hundred years in the city of Cincinnati and every one of us have been members of the Democratic Party. We take our party and our Faith damn seriously, as you well know. We are likewise strong supporters of union labor. Let me assure you that I am well aware of the Cormunist infiltration in both areas. We dont have to go to San Francisco or Brooklyn or anywhere else to find Communism; we have it right here in Cincinnati. Put we do stand idly by and watch Communism flourish because we have no place to go with our efforts.				

I am the secretary of a small group of determined citizens, who are devoting all its space time to this very subject; frankly we are discouraged, but we're going to keep on fighting Communism whereever we find it. It may seem strange to you that we are all Democrats and none of us are looking for political power nor authority in our party. We know

# Rule By Few

One of the most significant and thought-provoking statements to come across our desk recently is, we believe, worth reprinting. It is made as a preface to J. Edgar Hoover's report on Communist activities among young people. Author of the preface is Francis E. Walter, Chairman of the House Un-American Activities Committee. He says:

"In opening recent hearings by the Committee on Un-American Activities on Commumist activities and propaganda among youth groups, I stated that although the overwhelming majority of the young people of this nation are of unquestioned patriotism, this must not beguile us into feeling that because the Communist infiltrators among our youth are numerically in a minority, their threat is necessarily insignificant.

'Time and time again the Committee on Un-American Activities has pointed out that strength of the Communist movement in any of its ramifications bears little relationship to the number of its members; that instead, its strength and effectiveness are in direct ratio to the intensity of the efforts of the few who

are trained and disciplined agents.

"It was with only a relative few that Lenin seized control of the government of Soviet Russia. Only a few-some 3 or 4 percent-in Soviet Russia today are Communists. Only 1 to 2 percent of the captive nations are Communists. The Communist conspiracy operating on American soil—let it be emphasized and reemphasized is part and parcel of the world conspiracy and the thousands of Communists in the United States are for all intents and purposes foreign agents on American soil who are dedicated to our destruction.

" 'Operation Abolition'—this is what the Communists call their current drive to destroy the House Committee on Un-American Activities, to weaken the Federal Bureau of Investigation, to discredit its great director, J. Edgar Hoover, and to render sterile the security laws of our government. The Communist Party has given top priority to 'Operation Abolition' and has assigned agents trained in propaganda and agitation to this project. The Communist infiltration and agitation tactics among youth as described by Mr. Hoover in this report constitute just one extension of this Communist campaign which is a challenge to all patriotic

Dear

Thank you for your recent note enclosing a copy of J. Edgar Hoover's booklet, ""Communist Target --Youth".

I have read this interesting, though shocking, account and am forwarding it to my daughter for her information.

There are a number of organizations which are dedicated to exposing the Communist threat to our free country. The John Birch Society is one of these, and I have been interested in reading something about the work this dedicated society is doing in its efforts to awaken people from their apathy to what the Communists intend for our country. I am wondering if by any chance you have heard of this society.

Again, many thanks for your thoughtfulness in sending the booklet.

Dear Sir:

I would like to have several copies of your report entitled "Communist Target-Youth" which I saw mentioned this week in Human Events. Please tell me how to obtain these copies. I, along with many other people, have become increasingly alarmed by the threat of Communism in our country. I now intend to do something about that fear. I am planning to help arouse more people from their peaceful complacency to positive action in the form of voicing their concern to our elected representatives on the various Un-Constitutional and Anti-American policies presently operating in our government.

I appreciate very much the admirable job that the F. B. I. does in fighting Communism. In these times of Communist infiltration of so many parts of our government and other institutions, I have complete confidence in the F.B.I. I feel that the country is singularly blessed in having a strong incorruptable organization with dedicated leadership which you have provided.

Dear Sir: I would like to have several copies of your report entitled "Communist" Target - youth which I saw mentioned This week in Human Events Please tell me how to obtain those copies. I, along with many other people, have become increasingly alarmed by the threat of Communism in our country I now intend to do something about. I that fear. I am planning to below arouse more people of DEC complaining to positive a from of voicing their concern to our elected representatives on the various Un-Constitutional and anti-American

policies presently operating in our government. I appreciate very much the admirable job that the F.B. I. does in fighting Communism. In these times of Communist infiltration of so many of parts of our government and other institutions, I have complete confidence in the F.B.I. I feel that the country is singularly blessed in having a strong sincorreptable organization with dedicated leadership which you have provided. yours Very Touly

Mr. J. Edgar Hoover, The Federal 3ureau of Investigation, Washington, D.C.

Dear Mr. Hoover,

I am working with a group of approximately eighty people who are actively trying to combat communism in Colorado Springs. We have no name, no charter, no offices. We have been responsible for showing "Operation Abolition" to approximately 1500 people. This is very irritating to our liberal intellectuals at Colorado College. In the Open Forum of the Free Press, the Colo Spgs.daily, we have been getting numerous letters in opposition of the Civil Liberties to the movie. Even the saw fit to condemn the movie. We needb7C Union, (1) evidence from your office converning the charge of "distortion" in the movie, for a rebuttal; (2) any available information about un-American activities in the Civil Liberties Union.

At one time last spring, your office sent several copies of your speeches. Do you have any additional copies of these speeches, or any recent speeches? We would like them for study and distribution. We find that the hane of "J.Edgar Hoover" is the best reference. Would it be possible to send the pamphlet "Communist Target-Youth"?

Very sincerely vours

Request: 100 copies "COMMUNIST TARGET-YOUTH"
" "NATIONAL SECURITY SEMINAR"

Gentlemen:

Mr. Jefferson and I attended the Anti-Communism School held under
the auspices of the Christian Anti-Communism Crusade

at the Biltmore Hotel, Los Angeles, Nov. 7-11, 1960. Since
then we have read "Masters of Deceit" by Mr. Hoover, "The Naked Communist" by Mr. Skousen, "The Pentagon Case" by Fox and Dr. Schwarz's book,
"You Can Trust the Communists" as well as several booklets published by
the Christian Anti-Communism Crusade.

From the School, we have purchased tapes of Mr. Skousen's lectures and Mr. Philbrack's lectures, and are ordering tapes of Walter Judd's lectures altho he was not a speaker at the School. It is our plan to play these in our home for groups of 10 couples at a time commencing the first of the year.

Having just read "Communist Target-Youth" and learned about "National Security Seminar (July, 1959), I would appreciate having 100 copies of each to distribute to those whom we will invite to hear the tapes. I have also ordered 100 copies of "The Heart, Mind and Soul of Communêtism by Dr. Schwarz to give out at the same time.

If you have any other reading matter or suggestions to make about the conduct of these group meetings, it will be appreciated.

Sincerely yours.

Would you do a very fast favor for us today. Right away, if not sooner.

I just got a letter yesterday from the Newman Club at the University of Wis. -Milwaukee asking me to send the film, "Operation Abolition" to them immediately to show at their JANUARY 4 meeting. I am sending them the film today.

COULD YOU HAVE SOMEONE SEND THEM
ABOUT 300 COPIES OF YOUR PAMPHLET
"COMMUNIST TARGET--YOUTH" RIGHT AWAY

SO THEY CAN DISTRIBUTE THEM TO THEIR STUDENTS WHEN THE FILM IS SHOWN?

Please, have them RUSH the pamphlets. Here is the address where the film will be shown:

Dear

Your letter of January 1, 1961, has been received, and the interest which prompted you to write is appreciated. In response to your request, enclosed are five copies of my statement, "Communist Target--Youth." Also included is some other material regarding communism which may be of interest.

The jurisdiction and responsibilities of the FBI do not extend to furnishing evaluations or comments concerning the character or integrity of any individual, publication or organization. However, I can advise you that the John Birch Society has not been investigated by this Bureau, but this should not be construed as a clearance or nonclearance of this organization by the FBI.

May I point out that this Bureau does not maintain or publish a list such as you mentioned in your communication. It is suggested that you contact the Subversive Organizations Section, Internal Security Division, United States Department of Justice, Washington 25, D. C., from which you can obtain a list of the organizations cited by the Attorney General of the United States. Also, you may be able to locate in your public library a copy of the "Guide to Subversive Organizations and Publications," prepared and released by the Un-American Activities Committee of the United States House of Representatives.

January 1, 1961

Federal Bureau of Investigation Washington, D. C.

Gentlemen:

For some months now the Wichita Eagle & Beacon has been publishing letters in a 'Public Forum' on the editorial page on the subject of communism which controversy has grown out of the local presentation of two films to civic and church groups, "Communism on the Map," and, "Operation-Abolition,"by members of the John Birch Society. In response to the Eagle & Beacon's printing excerpts from The Reporter and Washington Post as well as the Milwaukee Journal, Chicago Daily News and Boston Herald, readers have accused the local paper's editorial policy of being pro-communist as well as some readers accusing the Birch Society as being pro-fascist.

I am requesting copies of, "Communist Target-Youth" and any rebuttle you may have to the reply to the Hoover report published by the Bay Area Students, Berkeley 3, Calif. Also I request your comments on the aims of the John Birch Society. Trethe Birch Society doing the country a service in it's "fight" against communism or is there valid grounds to suspect the Birch Society itself of introducing a fascist element which likewise democratically minded persons need be informed of? What can be said of an organization whose founder, Robert H.W. Welch in "The "Politician," tries to prove that Mr. Eisenhower is a dedicated, conscious agent of the Communist party."

I request yo'ur publicized list of persons and organizations which are communists or communist-front. Do you likewise publish a list of persons and organizations which are fascist or fascistfront? If so please send both lists. Would it be proper to ask what information you may have on local individuals who have participated in the above controversy?

Respectfully yours,

Dear Senator Cooper,

I am aware that there is to be a concerted drive by Communists and pro-communists sympathizers to abolish the House Un-American Activities Committee. In my opinion the success of such a drive would be disastrous to our country.

I wish to protest, with all the vigor with which I am able, any effort against this admirable Committee. I consider it one of the most important organs of defence in our country - it and the F.B.I. - their work and efforts are invaluable. The removal of either, and any hindrence to their work would be a catastrophe. If a few individuals have to suffer its questions in the defence of their country it a small price to pay. Compare their method to those in Soviet countries!

I urgs you to support the House Un-American Activities Committee and to do everything in your power to prevent its abolition.

Yours very sincerely,

"O Lord our Lord, how excelled is thy name in all the earth!" -Psalms 8:9 Peoria, Illinois Jan. 3-1961

Dear Sir:

I am writing to you in reference to the leaflet 'Communist Target-Youth' by J. Edgar Hoover.

I wonder if it would be possible to get quite a number of copies to give out to my parishioners, relatives and friends. I feel sure I could give and send out any number you may wish to send me.

I received 100 copies of "Will you be free to celebrate Christmas in the future"? from Allen Bradley Company, Milwaukee, Wisc. around a week ago, and only have 30 left. I find that the 100 will not touch the surface. I ask my people to read them and give them to friends.

What ever number you wish to send I will greatly appreciate. Or any other material along this line. Thank you.

The Congressional Record

Pages <u>421-430</u>, Congressman Scherer, (R) Ohio, spoke concerning the attacks against the <u>House Un-American Activities Committee</u> by the Washington Post. Mr. Scherer requested to have printed in the Record

a series of letters by Congressman Walter, Chairman of the Committee, a letter to the editor from Congressman Pelly, (R) Washington, an editorial from the Washington Evening Star and several other editorials, columns and radio broadcasts. Mr. Scherer advised he was including this material "So that the public and Members of Congress who are daily exposed to the warped propaganda of this leftwing newspaper may have some idea of the facts surrounding the recent controversy about the committee and the film of the San Francisco riots." This material contains excerpts from Mr. Hoover's report "Communist Target—Youth," excerpts from an address by Mr. Hoover on October 18, 1960, and various other references. These have been noted for your attention.

Dear Sir

Would you please send me some more phamplets entitled "Communist Target-Youth." I would like to see that quite a few get distributed here in Moscow, Idaho. I think I could distribute at least 50. Everyone I've shown these to have been amazed, and I got a great deal out of them.

I am more convinced than ever that my neighbor is setting a definite communist pattern. She has written a letter on the electoral Board to the spokane newspaper. She seems to have a varied interest in civil rights, and continually pokes here and there at the U.S. just in little things, but always questioning the government. I am also of the opinion that she would love to be a martyr.

I have a few friends on the University of Idaho Campus who would like some of these phamplets too.

Dear Mr. Beckworth:

As one of your constituents accept my congratitions for being re-elected to represent the Third Congressional District of Texas. We need more pen in the position that you possess that want to do what is good and sound for the United States.

Recently, several school officials at Pine Tree observed the movie, "Operation Abolition." It is very informative and one that every patriot should see. We plan to show it to our student body.

To me and many other freedom loving citizens the House Committee on Un-American Activities is doing an excellent job and should not be abolished.

In connection with the motion picture, I would like for my pupils and those in other history classes to receive a copy of the report by J. Edgar Hoever entitled. "Communist Target—Youth." (This a report on the San Francisco riots against the HCUA). If you can supply me with 250 copies of this report I shall be very grateful to you.

The pupils found the other literature that you sent extremely enlightening and are appreciative of the fact that their Congressman was interested enough to see that they might receive such educational materials. Also, let me express my thanks for the literature.

May God's richest blessings be with you and the Beckworth family.

Dear Mr. Hoover:

Please may we have a copy of the pamphlet "Communist Target -- Youth"? We have been following the scanty newspaper and radio reports of the attempt to form a national organization in Chicago earlier this month. Why can't these organizers be exposed to a glare of publicity -- much more than they got -- so that more basically-well-meaning-but-complacent Americans can be warned about what is happening?

We have arranged to have a PTA meeting, in our children's school, planned for a program about the spread of Communism. Is it possible to get a large number of copies of the "Target" pamphlet to be distributed at such a meeting? Or have you a better suggestion?

Please add us to the army of honest Americans who support you wholeheartedly against crime — and the worst crime of all — Communism.

Very sincerely,

Dear Inspector:

We are preparing to crank off on our presentation of the "Operation Abolition" film. The first showing will be to the general public via television next Monday night.

In connection with this presentation, we are taking the liberty of suggesting to the public that we will make available a copy of "Communist Target - Youth" to anyone in our circulation area who desires one. We later will offer them, as I told you we would, at the various clubs and schools where the film also will be shown.

Toward that end, will it be possible for us to obtain 10,000 copies of the pamphlet? It may be that you would prefer to let us have 5,000 now and the remainder if and when we need them. We would appreciate a shipment of at least 5,000 as soon as possible in order to tie in with the promotion we are doing on the T.V. presentation.

Informe de J. Edgar Hoover, Director del Negociado Federal de Investigaciones

La fructuosa explotación y manipulación comunista de la juventud y los grupos estudiantiles en el mundo de hoy día constituyen un gran reto que debe ser aceptado y vencido por las fuerzas del mundo libre. Los econtecimientos mundiales recientes revelan con claridad que el mundo comunista ha dado principio a una campaña extensa para sujetar y manejar a la juventud y a los grupos estudiantiles.

El vigor y la vitalidad de ellos constituyen una fuerza explosiva de inmensas proporciones. Esta fuerza, encauzada como se debe, puede realizar mucho bien para un mundo amante de la paz. Si se maneja y guía por canales destructores, esta fuerza puede originar el caos.

#### MOTINES EN JAPON

Los comunistas se han convertido en peritos en el uso de esta fuerza para originar el caos. En Japón, por ejemplo, los comunistas han cuidado y desarrollado muy celosamente a un creciente grupo de estudiantes durante un período de más de diez años, usándolos periódicamente en manifestaciones de protesta. El punto culminante de este entrenamiento se alcanzó este año cuando estos agitadores, organizados con esmero y estrictamente disciplinados, conmovieron a Todo el mundo con sus demostraciones tumultuosas.

## MANIEUSTACIONES EN URUGUAY

Las semillas para futuras manifestaciones de esta cluso en crande escala han sido sembradas por los comunistas en otros países. Las pequeñas demostraciones en las que figuraron estudiantes orientados en el comunismo a principios de este año en Uruguay - manifestaciones que menoscabaron lo que de otra forma hubiera - Sído una bienvenida cordial al Presidente de los Estados Unidos en la última etapa de su excursión por la América Latina - trajeron a la memoria las actividades, instigadas por los comunistas, de grupos estudiantiles en Japón hace diez años. Los comunistas esperan que las semillas en Uruguay y en otros países produzcan los mismos frutos que en Japón, conduciendo eventualmente a manifestaciones del tipo que sacudieron a ese país.

# UN PRINCIPIO FUNDAMENTAL DE LA ESTRATEGIA COMUNISTA

Ha Sído por mucho tiempo un principio fundamental de la catrategia comunista el dirigir la fuerza explosiva de la juventud para obtener sus propios objetivos perniciosos. En su lucha implacablo emprendida para obtener el dominio del mundo, los comunistas están consagrados al princiípio leninista de que "la juventud solucionará el problema de toda la lucha - la juventud estudiantil y, más aún, la juventud obrera."

En la Unión Soviótica, por ejemplo, las riendas de la juventud son refrenadas con puño de acero. Para llenar los requisitos y tener opertunidad de adquirir una educación superior y mejores emoleos en la sociedad soviética, los jóvenes tienen que ser miembros de la Liga Juvenil Comunista, el "Komsomol." Desde su niñez, tienen que aprender a aceptar el camino dictade por los gobernantes del único dios que se les permite conocer y adorar - el Estado todopoderoso.

La China Comunista es un ojemplo más evidente de la determinación comunista de hacer que la juventud sirva sus objetivos. Hay millares de niñoj en la actualidad que son criados en "la forma colectiva." Desde la cuna hasta la fábrica, la juventud de la China Comunista es moldeada para servir a la crusa del mundo dominar al mundo.

Proyectando este principio de estrategia comunista desde sus telenes de acero y de bambú hacia afuera, los comunistas luchan con igual intensidad para subvertir la juventud de etros países. Los engaños que ellos emplean son tentadores y variados. Hay, por ejemplo, los Festivakos. Mundiales de la Juventud, que se han celebrado bienalmente desde el 1947. El séptimo de estos Festivales, que se efectuó el año pasado, en Viena, atrajo centenares de jóvenes de América, Africa, Asia y de los países satélites seviéticos.

# LA TECNICA EN CUBA

Hoy día la técnica comunista de la explotación do la juventud es igualmente evidente en Cuba. A principios de este año, delegados de las organizaciones comunistas juveniles procedentes de muchos países asistieron a una conferencia de juventudos en Cuba. Un delegado norteamericano que asistió al acto rindió después un informe al Partido Comunista de los Estados Unidos sobre lo que allí pasó. El informe contenía una descripción viva de cómo la Liga de Juventud Comunista en Cuba oporaba alli conjuntamente con el Partido Comunista, y detallaba los planes de la Liga de Juventud Comunista para unirse con otros grupos juveniles en Cuba "para fortificar la revolución." La prueba de la manera en que los grupos juveniles se aprovechan allí para "fortificar la revolución" se ve claramente cuando los periódicos de este país incluyen fotografías de niñas estudiantes haciendo ejercicios con rifles al hombro.

# EL ANTO DE LOS COMUNISTAS EN LOS STADOS UNIDOS

El Partido Comunista en los Estados Unidos está de plácemes por el éxito que ha obtenido recientemente en el desarrollo y la explotación de juventudes y grupos estudiantiles. Un vecero en una de las reuniones nacionales del comité ejecutivo del partido, a principios de este año, manifestó que "se ha dado un gran paso hacia adelante" con respecto a los jóvenes, particularmente en las universidades, dende los estudiantes quieren seber lo que es el socialismo."

Por desgracia, hay algo de verdad en lo dicho por el vocero del partido. El Partido Comunista ha dado un paso adelanto, aunque limitado, en lo que concierne a sus esfuerzos para infiltrar la juventud y grupos estudiantiles en este país. Este no se dobe atribuir ni a la casualidad ni a un golpe de buena suerte para el partido. Por el contrario, es el resultedo de planes cuidadosos y de un esfuerzo concentrado de parte del partido.

## LA CAMPAÑA COMENZO EN 1959

En 1959, el Partido Comunista de los Estados
Unidos principió una extensa campaña teniendo a la
juventud como blanco. El 30 y el 31 de mayo de 1959, respectivamente,
unos veinte jóvenes comunistas de las ciudades de Nueva York,
Baltimore, Chicago, Dotroit, Los Angelos y Philadelphia,
asistieron a una conferencia con líderes nacionales del
partido en las oficinas principales de éste en la
ciudad de Nueva York. El propósito de la reunión era formular
un plan, para atraer sangre joven - adolescentes,
estudiantes y jóvenes obreros - a las filas del partido.

Después de esas conferencias de mayo de 1759, todas las universidades del passetornaron en objetivos principales para la infiltración comunista y sus esfuerzos de reclutamiento. El partido comenzó a llevar a la práctica lo que en realidad era un plan de conferencias, y los voceros del partido se aprovechaban de toda oportunidad para proyectar sus puntos de vista hacia las universidades de todo el país.

Para establecer un lazo más estrecho entre ol partido y sus grupos juveniles, dos de los jóvenes comunistas más prometedores y activos, Mortimer Daniel Rubin y Danny Queen, fueron incluídos en el comité nacional del partido.

Hyman Lumer, quien había sido funcionario del partido durante mucho tiempo, fue relevado de toda responsabilidad en las cuestiones juveniles, y todas las obligaciones respecto a esta fase de las actividades del partido fueron delegadas en Rubin. Una nueva organización juvenil marxista, "Advance" (Avance), fue erganizada en la ciudad de Nueva York. En la actualidad se ha inaugurado una campaña para crear una nueva publicación juvenil marxista, "New Horizons" (Nuevos Horizontes).

TRAMPA PARA LOS STUDIAGTIS

Los planos para lo estructura de "New Horizons" rovelan la naturaleza de la trampa que los comunistas están tendiendo a los estudiantes universitarios. Mientras informaba recientemente sobre estos planes al comité ejecutivo nacional del partido, Rubin señaló que "New Horizons" no será clasificada como una publicación marxista. El objeto de ello es evitar que se identifique muy estrechamente con el Partido Comunista. Pero dará, dijo, un "análisis marxista del movimiento juvenil y tendrá un aspecto socialista, marxista—leninista." Manifestó su convicción de que esto será efectivo en grado sumo para cerrar la brecha que existe entre lo que él llamó juventud democrática y la juventud izquierdista.

La agenda de la conferencia juvenil del partido, celebrada en Chicago el 11 y 12 de junio de 1960, ilustra con claridad el tremendo impulso que el partido está haciendo para infiltrar los grupos estudiantiles. Los puntos principales en la agenda de la conferencia fueron: 1) el aumento de las masas en las universidades y 2) el incremento de estudiantes izquierdistas. En relación con estos puntos se discutieron formas y procedimientos mediante los cuales los jóvenes comunistas pueden explotar asuntos polemisticos en las universidades, tales como los derechos civiles, la libertad académica y otros llamados asuntos de paz.

nuestro país está hoy día desaporcibida por completo del riesgo que corre de ser engañada y explotada por los comunistas. Una prueba deplorable de este hecho se hizo patente por completo en la corte municipal de San Francisco el l de junio de 1960, cuando el Juez Albert A. Axelrod declaró sin fundamento las acusaciones de motín contra 62 de las personas detenidas como resultado de la violencia que surgió durante unas manifestaciones de protesta en las vistas celebradas en esa ciudad por el Comité de Actividades Anti-Americanas de la

Por desgracia, una gran parte de la juventud en

(HCUA) del 12 al 14 de mayo de 1960.

Camara de Representantes (House Committee on Un-American Activities)

El juez señaló que había bases amplias para comprobar la culpabilidad en los casos de los 62 acusados, quienes, on su mayor parte, oran universitarios pero agrogó que casi topos los acusados eran estudiantes sanos de buena presencia a quienes una condena de esta claso podía afectar para el resto de sus vidas. Como respuesta a esa acción de parte del juez, 58 de los acusados firmaron una declaración que fue distribuída inmediatemente después que el juez rindió su decisión. Loía, en parte, "Nadie nos instigó, nadie nos guió por mal comino. Fuimos guiados por nuestras propias convicciones y nos mantendremos firmes en nuestra posíción."

LA NOCESIDAD DE SABER

A la luz de osa declaración, es de vital importancia poner en claro hasta qué grado fueron los comunistas responsables de las condiciones vergonzosas y bulliciosas que prevalecieron en las vistas del HCUA; Es sumamente importante que, no sólo los estudiantes que temaron parte en el incidente, sino también todos los estudiantes del país a quienes los comunistas esperan explotar en situaciones similares, reconozcan las tácticas comunistas que resultaren en lo que ha sido llamado por los expertos observadores de la costa occidental, familiarizados con la estrategia y las tácticas comunistas, el golpe comunista más manifiesto que ha ocurrido en San Francisco en 25 años.

El ataque comunista contra el HCUA en San

Francisco estuvo delineado de acuerdo cen uno de los objetivos más sólidos del partido, cual es destruir no sólo al HCUA, sino también al Subcomité de Seguridad

Interna del Senado (Senate Internal Security Subcommittee)

y todo etro "enemigo" que tratase de poner de manificato
la amenaza que las actividades comunistas representan para
la seguridad interna de la Nación. El partido reafirmó su
dedicación a este objetivo en su Decimosóptima Convención

Nacional, celebrada en la ciudad de Nueva York en diciembre
de 1959, cuando aprobaron una llamada resolución política
exhortando a temar medidas para suprimir al HCUA y al
Subcomité de Seguridad Interna del Senado en su "búsqueda
de Cantasmas."

Por eso, cuando se applició la decisión del HCUA de celebrar vistas del 12 al 14 de mayo de 1960 en San Francisco, era obligatorio para los comunistas el poner en práctica la resolución de la Convención, haciendo todo lo posible por desorganizar las vistas como parte de su objetivo de destruir al HCUA;

# EL PARTIDO EN UNA POSICION VENTAJOSA

al partido en una posición particularmente ventajosa para lanzar su ataque. Una encuesta del HCUA sobre las actividades comunistas de pedagogos en el norte de California había sido proyectada en un principio celebrarla en junio de 1959. En esa oportunidad se dosarrolló una amplia oposición contra las vistas entre los grupos de maestros, organizaciones de las iglesias, grupos interesados en libertades civiles y algunos periódicos de San Francisco. Grupos estudiantiles fueron organizados para protostar contra las vistas en casi todas las universidades de esa área, inclusivo las de California, Stanford y el City College.

La subsiguiente cancelación de las vistas de 1959 dejó a muchos de estos grupos inactivos pero intactos. resultado, /se amunciaron las vistas de mayo de 1960, se requirió muy poco esfuerzo para reactivar estos grupos de oposición, a posar de que las nuevas vistas no estaban dirigidas en contra de las actividades comunistas en el ramo de la educación. Después de la cancelación de las vistas do 1959, of HCUA entregó los expedientes de esos individuos a la oficina del Procurador General de California y a las juntas de educación de que dependían los profesores implicados, para que se adoptaran las modidas necesarias. miembros del Partido Comunista en esa region sembraron muy hábilmente la idea de que las vistas del 1960, básicamente, estaban también dirigidas contra los maestros y que el propósito anunciado de investiger las actividades del Partido Comunista en la region ora simplemente un truco para encubrir un ataque contra los maestros.

## EL PLAN DE ATAQUE COMUNISTA

En estas circunstancias es posible revelar cómo se desarrolló el plan de ataque del Partido Comunista. Se podrá ver que el plan tenía dos objetivos importantes y fue desarrollado en dos etapas para llevarlos a cabo. El primer objetivo del partido era llenar la sala de audiencias con manifestantes. El segundo era instigar a estas personas a actuar aprovechando la psicología de las masas.

La primera etapa del plan de acción del partido comenzó a desarrollarse después de que líderes del partido recibieron la noticia, el 26 de abril de 1960, de que Comunistas locales habían recibido citatorios para comparecer en las vistas que habían de celebrarse del 12 al 14 de mayo de 1960. Douglas Wachter, un muchacho de 18 años, estudiante de segundo año de la Universidad de California, fue uno de los citados. Wachter había asistido a la Decimoséptima Convención Nacional del Partido Comunista en diciembre de 1959 como delegado oficial de la parte norte de California.

Los dirrontes del partido acordaron basar gran parte de su plan de ataque en el caso de Wachter. Inmediatamente después de haber sido citado, Wachter comenzó a organizar grupos de manifestantes entre los estudiantes de la Universidad de California. Mickey Lima, presidente del distrito del norte de California del Partido Comunista, dió órdenes a Roscoe Proctor, miembro del comité del distrito, para que se comunicara, también con ciertos estudiantes de la Universidad de California y consiguiera su apoyo. Se le asoguró a Lima que tendría la ayuda de los estudiantes del Santa Rosa Junior College en Santa Rosa, California. Un amigo suyo, hijo de un miembro del Partido Comunista del condado de Sonoma y estudiante del San Francisco State College tambien, muy entusiasmado, le prometio su apoyo.

# ORGANIZANDOSE PARA ACTUAR

Un bosquojo de la línoa de conducta del partido en relación con las vistas y el plan general de ataque fue trazado y distribuído a todos los miembros del partido en la region a principios de mayo de 1960 en un memorándum titulado, "Memorándum Sobre los Anti-Americanos." Era una llamada para actuar y las masas del partido respondieron en seguida.

Miembros del Club San José del Partido Comunista del condado de Santa Clara distribuyeron peticiones e hicieron los trámites para publicar un aviso de protesta en los periódicos locales de San José.

Los miembros del Partido Comunista de Oakland prepararen programas de radio y anuncios pera hacer pú lica su protesta en los periódicos de esa zona.

Se iniciaron campañas para recaudar fondos en los diferentes clubs como medio para proveerse de ayuda económica para el ataque.

Temprano en la noche del 6 de mayo de 1960, los líderes del partido celebraron una reunión para avaluar su progreso y planear más actividades. Mickey Lima manifestó que el movimiento en la Universidad de California y etras universidades había empezado a dar buenos resultados - los estudiantes estaban empezando a exigir manifestaciones y picuetes para recibir al HCUA;

Lima entonces dió órdenes de que cada representante de un club en la region & Lima pronerse en comunicación con todos los miembros de su club para asegurar una demostración sólida en las vistas. Tambión discutió los planes formulados por los jóvenes del Partido Comunista de la region de East Bay y dijo que juería coordinary estos planes con los de los grupos de San Francisco.

Miembros del partido llevaron a cabo una campaña telefónica para solidificar su oposicion al HCUA, y ésta fue específicamente trazada para que llegara hasta mil personas. Merle Brodsky, quien había 3/do un líder activo en asuntos del Partido Comunista en California por espacio de más de vointe años, se jactaba de que él estaba telefoneando a todas sus conocidos y consiguiendo su ayuda para las demostraciones. ORGANIZACO ONES PARALFLAS

En este ataque organizado contra el HCUA, no se deben dejar pasar por alto otras actividades que coincidían con las del partido. Mucha de la propaganda distribuída durante la campaña, por ejemplo, salió en nombre del Comité de Ciudadanos Para Proteger las Libertades Americanas (Citizens Committee to Preserve American Freedoms) (CCPAF) y el Foro de la Comunidad de East Bay (East Bay Community Forum) (EECF). Según un dirigente del partido, ambas organizaciones están bajo el control del Partido Comunista.

La rama del CCPAF on San Francisco fue organizada el 4 de abril de 1960, precisamente con el propósito específico de oponerso a las vistas del HCUA. Este grupo celebró una reunión de emorgencia en la primera somana de mayo de 1960, y en esa ocasión se recaudaron fondos, se solicitó la preparación de cartas para los editores de periódicos y se abogó por la abolición del HCUA.

El Partido Comunista proporcionó fondos al CCPAF para sufragar el gasto de enviar literatura por correo durante la campaña y, cuando ya el asunto había terminado, l'ickey Lima elogió al secretario ejecutivo del CCPAF, Frank Wilkinson, por la participación destacada que éste había tenido en la organización de las demostraciones. Debe mencionarse que Wilkinson, llamado "el cerebro y la energía" detrás del CCPAF, fue citado por desacato al Congreso el 13 de agosto de 1958, por haberse negado a contestar preguntas ante el HCUA el 30 de julio de 1958, en relación con los miembros del Partido Comunista. El 22 de encro de 1959, fue declarado culpable de desacato y condenado a doce meses de prisión el 2 de febrero de 1959. Lima apeló el fallo y su apelación está actualmento pendiente en la Corte Suprema de los Estados Unidos.

A medida que se iba ace cando el día de las vistas, los comunistas intensificaban sus esfuerzos para asegurar una concurrencia abundante. Líderes comunistas en Berkoley hicieron arreglos para transportar, desde Berkeley hasta San Francisco, a los jóvenes interesados en asistir a las vistas, que durarían tres días. Se celebraban reuniones, aparecían folletos en las universidades, y las llamadas telefónicas eran cada vez de más urgencia.

Para el 11 de mayo de 1960, los lídores del partido sabían que habían obtenido buen éxito en la primera etapa de su plan de campaña. La reacción que tuvieron sus esfuerzos organizados indicaba que el primer objetivo de su plan de ataque se realizaría - los manifestantes acudirían en masa.

## LOS PLANTS PARA LA SEGUNDA TAPA

Mientras tanto, el partido no había echado en Olvido la segunda etapa de su campaña. Se habían formulado planes sobre las diferentes formas mediante las cuales el partido podía enardecer el ánimo de los manifestantes. Unos días antes de cemenzar las vistas, Saul Wachter, uno de los miembros que habían sido citados, manifestó a los miembros del partido que el HCUA tropezaría con "bastante oposición" y que habrían manifestaciones contra el comi+é. Se recibieron en otros informes en el sentido de que Merle Brodsky y Archio Brown proyectaban llevar a cabo demostraciones de su poder durante las vistas de manera que fueran expulsadas por la fuerza y valerse de ello para captarse las simpatías de los estudiantes.

Los funcionarios del partido se reunieron con varios de los testigos y los instruyeron en cuanto a la tártica que debían seguir ante el comité. El 6 de mayo de 1960, nor ejemplo, Mickey Lima los dijo a unos miembros del partido que él se había reunido con Leibel Bergman, Andy Negro y Vern Brown para asegurarse de que ellos serían testigos hostiles.

Archie Brown, un estibador de larga experiencia y ex-miembro del comité nacional del partido, también reveló a unos miembros del mismo otra táctica similar que el partido pensaba usar.

Dijo que éste había aprobado un documento que Juanita Wheeler, etro miembro del mismo, que había sido citada, debería leer cuando fuera llamada a declarar. El partido planeaba usar esta declaración, que consistía de un ataque contra el HCUA, como medio de propaganda en el futuro.

Se prepararon folletos adicionales para distribuirlos durante los tres días de las vistas. Prepararon también cartelones que llevarian los manifestantes. Nada fue pasado por alto; ni siquiera el plan para coronarlo con un punto culminante. Hicieron arreglos para que los manifestantes se unieran a una "Marcha de Paz", auspiciada por el partido, el sábado 14 de mayo de 1960, al concluir las vistas.

#### ACITADORES EN ACCION

Cuando llegó el día en que se iniciaron las vistas, el partido estaba preparado para actuar y realizar su segundo objetivo de instigar las masas. Unos cuantos miembros prominentes estaban llamados a asumir papeles principales como agitadores. A los otroj se les había ordenado que permanecioran tranquilos para evitar que se les implicara en cualquier acto de violencia que pudiera surgir.

Tan pronto como se inauguraron las vistas, los miembros del partido empezaron a representar los papeles que se les había asignado. La actitud belicosa e insultante de algunos de los 36 testigos en no querer prestar su cooperación se hizo tan irritante que fue necesario expulsarlos por la fuerza de la sala de audiencias para poder conservar el orden y el decoro. Archie Brown y Merle Brodsky, actuando según su plan, se condujeron de manera hosca y desdeñosa. Ambos dirigieron frases injuriosas y derogatorias a los miembros del cemité.

Una pandilla organizada de simpatizadores los ayudó en el salón de las vistas a representar sus papeles. Cerca del veinticinco por ciento de los espectadores habían sido citados, así como sus familiares, amigos, abogados y simpatizadores. Este grupo aplaudía, dando vivas a las excentricidades de Brown y Brodsky y abucheaba, silbaba y ridiculizaba al comité en cada oportunidad que se presentaba. Las tácticas destructoras de Brown se intensificaron a tal punto que fue necesario sacarlo de la sala por la fuerza. Esto era precisamente por lo que Brown había luchado para lograr de acuerdo con su plan para captorse las simpatías de la multitud.

Dospués del almuerzo, Brown y Brodsky entraron de nuevo en acción. Poco antes de abrirse la sesión de la tarde se apodoraron de un micrófono situado frente al, salón de las vistas y exigieron que los espectadores que estaban fuera fueran admitidos. Sus simpatizadores vociforaban en los mismos tórminos. Después de haberse hebase por en obedecer las órdenes de que tomaran asiento, Brown, Brodsky y otros fueron expulsados por la fuerza, cada uno ofreciendo violenta resistencia. Brown trató de golpear a dos policias y Douglas Wachter arrojó un port folios a un oficial que trataba de echar fuera a su padre, Saul Wachter.

El plan de Brown para instigar a las masas comenzaba a materializarse. Al ser arrojado fuera del salón de
las vistas, se oyeron vivas de simpatía de parte do la
multitud, que consistía mayormente de estudiantes reunidos
dentro de la Casa Consistorial en la escalera de entrada al
salón. Ambos, Brown y Brodsky, hicieron un llamamiento a la
multitud, Brodsky incitándolos y dirigiéndoles mientras pritaban:
"Abran las puertas; abran las puertas!"

A pesar de esas tácticas destructoras, la policía pudo mantener cierta apariencia de orden ese primer día. El próximo fue otra cosa. Como resultado del interés originado por las actividades del día anterior, la multitud fue muchomás nutrida. Se notaba, particularmente, el aumento de concurrentes por la presencia de miembros adicionales y antiguos miembros del partido.

Archie Brown reanudó con toda rapidez sus tácticas de la víspera al empezar las sesiones. La multitud fuera del salón de las vistas gritaba a coro y entonaba canciones. Estas eran, sin género de duda, parto de un plan bien organizado, ya que los concurrentes tenían las canciones impresas. Las súplicas para que so mantuviora el orden y el silencio eran sólo objeto de burla.

#### PASA LO INEVITABLE

La tensión aumentaba y pasó lo inevitable. Surgió una llamarada de violencia esa tarde. Uno de los jueces de una sala de la corte municipal ordenó que se dispersara la multitud porque le era imposible, por el ruido, conducir la sesión de la corte. Cuando se intentó hacer cumplir la orden, la multitud respondió arrojando zapatos y empujando a los policías. Un oficial los amenazó con usar mangueras si la multitud no se dispersaba, pero ésta, instigada por los comunistas, quienes habían logrado situarse en posiciones estratégicas, se volvió más ingobernable.

Uno de los manifestantes proporcionó la chispa que encendió la llama de la violencia. Brincando sobre una barricada que se había levantado, le arrebató la macana a un policía y comenzó a golpearlo en la cabeza. La turba se movió hacia adelante dispuesta a romper las puertas, y un inspector de la policía ordenó que se abricran las mangueras. El agua hizo que la turba retrocediera y calmó los animos de los manifestantes.

Reinó el silencio por algunos minutos. Aprovechándose de la calma, los policías comenzaron a sacar fuera
a algunos de los manifestantes, aconsejándoles que obedecidran
la orden de dispersarse. De momento, dándose cuenta de lo
que estaba pasando, algunos individuos belicosos del grupo
reanudaren la violencia pateando y golpoando a los policías.
Un total de 68 individuos, la mayoría de ellos estudiantes,
fueron detenidos por incitar un motíp y resistirse a ser
arrestados.

El orden había sido restablacido cuando Harry

Bridges, el presidente de la Unión Internacional de a Estibadores y

Almacenadores, apareció repentinamente. Demandando

que le dijeran el papel que los bemberos habían desembeñado

en el uso de las mangueras, Bridges dijo que vería si era

posible rebajarles sus salarios. Las actividades del día

concluyeron con Archie Brown unióndose a Bridges y gritando:

"Diles tú, Harry; ellos sí te oscucharán!"

La violencia de las mosas en el tercer día de las vistas fue escasamente impedida. Ecrtram Fdises, de Oakland, uno de los abogados que habían sido contratados por el partido para representar a las personas que habían sido citadas y quien a la vez tênía que declarar por haber sido citado, se comportó con arrogancia y de manera insultante al comparecer ante el comité. Sus ataques y alematos ante el comité motivaren la orden para que fuera expulsado de la sala. La multitud en el salón de las vistas y afuera había permanecido callada y pacífica hasta entonces.

Repentinamente excitada, la multitud se dirigió en forma amenazadora hacia la entrada de la Casa Consisterial. Los miembros del comité fueron escoltados por la policía por la puerta de atrás, en tento que un cordón de policías uniformados, patrulleros en motocicletas y policías mentados, retenían a los manifestantes encolerizados. La multitud, que para entences llegaba a unas dos mil personas, centinuó arremolinada en los alrededores por espacio de una hora, a pesar de que ya se había anunciado por un alteparlante que la junta del HCUA se había marchado.

#### LA REACCION DEL PARTIDO COMUNISTA

El Partido Comunista de los Estados Unidos está sumamente alberozado por el buen éxito que alcanzó su tentativa para ocasionar el fracaso del HCUA en las vistas de San Francisco, en las cuales, a pesar de tedes los refuerzos del Partido Comunista para cenarlas por tierra, se obtuvo información valiosa y necesaria en relación cen la estrategia, tácticas y actividades del partido en el norte de California. El resocijo del partido es tanto que prueba la veracidad de la observación de que un polpe comunista de esa naturaleza no había acentecido en el área de San Francisco dasde hacía 25 años. Inmediatamente después que terminó el incidente, el líder nacional del partido, Gus Hall, Felicitó a los camaradas de la costa occioental por la iniciativa y buena dirección que demostraron en todas las etapas de las manifestaciones.

Los funcionarios del partido estaban particularmente satisfechos por el número tan grande de estudiantes que participó en las demostraciones. Cementaren que no había habido tanta "actividad política" entre grupos estudiantiles en muchos años. Archie Brown fue especialmento encemiado por la tarea formidable que había hecho entre los estudiantes, trabajando con ellos en los pasillos de la Gasa Consisterial ganando asi sus simpatías.

Mickey Lima expresó su satisfacción por el número de antiguos miembros del partido que regresaron, a sus filas a consecuencia de los acontecimientos. Dijo que miembros del partido que no se habían visto en muchos nos parecien haber "aparecido por las rendijas" en respuesta a la campaña del partido.

Varios funcionarios del partido en la costa occidental informaron que el huen éxito de las demostraciones había tenido un efecto notable en algunos de los miembros "tibios" del partido. Un cirisente del partido comentó que había sido un buen estimulante para el partido, ya que la asistencia a las reuniones de los clubs había aumentado súbitamente.

Los directores de la publicación del partido en la costa occidental, "People's World" (El Mundo del Pueblo), estaban regocijados por el resultado beneficioso que tuvieron las manifestaciones en relación con una campaña que se estaba llevando a cabo para recaudar fondos para el periódico.

Según informas, el periódico recibió cartas de individuos en todo el país, como también del extranjero, respeldando la campaña.

En fin, la opinión general del Partido Comunista fue que el motín había sido lo mejor que le ha ocurrido al partido en muchos años. Sus dirigentes hicieron hincapió en la importancia del hecho de haber podido obtener el apoyo de tantas personas de diferentes esferas sociales, aún cuando el partido estaba siendo públicamente atacado por el HCUA. El sentir del partido era, no sólo que éste había dado un paso grande hacia su objetivo de abolir el HCUA, sino que también había dado un paso grande hacia el desempoño de un papol más importante en la vida norteamericana. CAMPAÑA DESPUES DE LAS VISTAS

El partido no "descansó en sus laureles" después del buen óxito obtenido en su ataque contra el HCUA. Está llevando a cabo muchas más campañas para atraer a la juventud y los grupos estudiantiles a sus filas y está usando el buen resultado de las manifestaciones como instrumento de campaña.

En una rounión del partido celebrada la noche del 20 de mayo de 1960, Archie Brown reveló cómo el partido pretendía aprovechar estudiantes universitarios cemo blanco en otra campaña. Añadió que el partido proyectaba hace hincapió en "la brutalidad nelicíaca" como tema para capta/se las simpatías de los grupos estudiantiles. Señaló ue estaba particularmente satisfecho per haber sido invitado para dirigir la palabra, en la Universidad de Stanford, añadiendo que ya lo había hecho ante los estudiantes de la Universidad de California, en Perkeley. Brown dijo que el "People's Morlá" había preparado un suplemento especial sobre las demostraciones para distribuirlo en todas las universidades de la región, así como también a todos los trabajadores de los muellos.

La campaña se lleva a cabo, al pie de la letra, tal como Brown la trazó. No sólo Brown, sino también otros comunistas, han hablado ante grupos estudiantiles y juveniles del área.

El partido preparó veinte mil folletos para distribuirlos en las universidades de la región. Se titulan "From Blackmail to Blackjack" (Del Chantaje a la Cachicorra), y recelcan el tema de que, en las vistas del "los estudiantes estaban defendiendo pacificamente las americanas mas preciadas," cuando "mangueras, parrote cachiporras" se usaren centra ellos "sin aviso y sin haber habido provocación" para "intimidar y aplastar la oposición pública" al HCUA. Estos folletos los distribuyó la organización del partido sin costo alguno, con el sólo objetivo de explotar las simpatías de los universitarios de esa región.

Un rasgo muy significativo del folleto es el engaño que prerenta para los incautos. Contiene un recuadro para que sea llenado por aquellos a quienes les gustaría recibir un ejemplar del "People's World", como regalo.

#### CONCLUSION

Aunque se tione que admitir que el motin de San
Francisco durante las vistas del HCUA ha sido lo mejor que
ha ocurrido en beneficio del Partido Comunista en años, los
norteamericanos también nueden beneficiarse con este despliegue
de la estrategia y la táctica comunista en acción. En efecto,
es imposible mantenerse ocioso ante el reto que representa
este triunfo comunista.

Los comunistas demostraron en San Francisco cuán poderosa es el arma de su infiltración. Revelaron, también, cómo es posible que sólo unos pocos agitadores comunistas puedan, mediante el uso de la psicología de las masas, convertir demostraciones pacíficas en motines. El éxito que obtuvieron allí debe servir de advertencia de que sus esfuerzos de infiltración, dirigidos no sólo a los jóvenes y grupos estudiantiles, mino también a nuestros sindicatos de trabajadores, iglesias, grupos profesionales, actistas, la prensa, el gobierno, etc.; pueden crear caos y destrozar nuestra seguridad interna.

Los comunistas también demostraron que la amenaza del comunismo no es una simple y franca amenaza. Es, por el contrario, una conspiración que puede ser deminada solamente mediante un completo conocimiento de su verdadera naturaleza y de la capacidad para distinguir entre la randa de y la propaganda. Si se estudian los verdaderes hechos, el incidente de San Francisco deja ver la naturaleza conspiradora del partido. Todo acto que revele de esta manera las tácticas del comunismo puede utilizarse para destruir su atractivo ideológico y para fortificar la Nación contra las presiones esicológicas que los comunistas aplican continuamente a todas las clases de nuestra sociedad con el propósito de debilitarnos.

Hoy día vemos caer en todo el mundo gobiernos derribados con una rapidez exerbitante. Ya sea grande e pequeño, no debe desconocerse el papel que desempeñan los comunistas en estos acontecimientos. La fuerza creciente de nuestra Nación a través de los años no ha podido disuadir los esfuerzos implacables de parte del Partido Comunista de los Estados Unidos para destruir nuestra seguridad y preparar nuestra Nación para una suerte similar.

Al observar los motines y caos que los comunistas han creado en otros países, muchos norteamericanos, señalando la fortaleza de nuestra Nación, dicen, "Eso no puede ocurrir aquí." El éxito comunista en San Francisco en Mayo de 1960 denuestra que sí puede ocurrir aquí.

Todas nuestras esperanzas para el futuro de nuestro país, asi como también para la paz del mundo, están ligadas a nuestras esperanzas para el futuro de la juventud de nuestro país. Ellos no nos fallarán si nosotros no los fallamos a ellos. Sólo nuestra apatía e indiferencia ante la amenza que la infiltración comunista representa puede causar semejante fracaso. Es el deber de todo corteamericano comprender por completo lo que en vordad significa para nuestras traciciones esta amenaza, y desermascararla y combatirla con todas las armas en nuestro poder.

La abrumadora mayoría de la juventy. So nuestra

Nación ha demostrado que rerece nuestra confianza y apoyo.

Ha demostrado un cenocimiento ereciente e interia en materia de asuntos nacionales e internacionales, incluyer una actitud ponetrante y analítica hacia los falsos atractives del cemunismo. Con nuestra sincera ayuda y orientación, la juventud de esta Nación podrá enfrontar el reto que el cemunismo ha arrojado sobre nosotres -- hoy y en los años venideros - defendiendo, protegiendo y difundiendo por todo el mundo el patrimonio de hembres libres de que distrutames hoy día.

## re:COMMUNIST TARGET, YOUTH

Dear Mr. Hoover:

At some time in August of last year, several of us who had heard of this film tried to interest some of our local public officials in its purchase and use. When they showed a marked dis-interest we decided to chip in and buy it for ourselves, This was done and since then we have made it available, without charge, and with services of projectionist and equipment. We have averaged about three showings a week to groups of fifteen to a hundred and fifty. Showing only on invitation, we have avoided giving hecklers a platform and a ready-made audience.

At first, we obtained a small supply of these pamphlets from the HCUA. They referred us to the Printing Office for any further need. We got what looked like an adequate supply from that source byt there was a considerable delay in filling the order.

again and would kike to know if you could spare us as many as a dozen.

If any of your personnel in the local office have not local seen the film, and would like to, we should be glad to give them a private showing in our home.

Cordially,

Dear

Your letter of January 16, 1961, with enclosure, has been received; and your interest in writing is certainly appreciated.

In the belief that a broad knowledge of the objectives and operations of the communist conspiracy is essential if americans are to effectively resist its influences, the FBI prepared Communist Target-Youth." detailing the highly organized tactics employed by the Communist = Party in the California demonstrations against the House Committee on Un-American Activities. This publication is intended as urgent encouragement to young people to learn the true nature of the communist threat and, armed with that knowledge, to resist being duped into unlawful and unthinking action.

It would be improper for the FBI to endorse the activities of any legislative committee, and this was not the purpose in publishing "Communist Target--Youth." This Bureau had no connection with the preparation of "Operation Abolition" which, as you know, is sponsored and distributed by the House Committee. As a matter of policy, therefore, I cannot make any recommendation concerning it.

In view of your interest in this matter, I am enclosing a copy of "Communist Target--Youth" as well as some other material which you may like to read.

Sincerely yours.

Dear Director:

Enclosed is a copy of a pamphlet produced by our organization. It is designed to shed some light on what occurred at San Francisco last May. Those who view the film are given a copy.

Some time ago we contacted the Toledo Board of Education. Their visual aids director previewed our print of "Operation Abolition" and recommended that high school social study classes view it. After the Blade editorial of December 24, 1960 appeared the whole school board now wants to take another look at it and make a final determination as to its suitability for high school audiences.

Would it be improper to ask you for a recommendation as to its usefulness for high school people? If not, we'd appreciatyour views.

# Wrong Target

AS REGULARLY as the winter solstice, the annual summary from J. Edgar Hoover of FBI activities rolls in, spiced with the usual warnings of Communist conspiracy and efforts dedicated to seducing the youth of the land into becoming Marxists.

Come the end of this month, Mr. Hoover notes, the Communists will meet in Chicago to set up a new national youth organization to be directed sub rosa by party members. And in this, he warns, the Reds "hope to repeat the success which they achieved on the West Coast last May in spearheading mob demonstrations by college students and other young people against a committee of Congress."

Mr. Hoover presumably is referring to the San Francisco demonstrations during abortive hearings by the House Un-American Activities Committee. The only trouble is that responsible investigations of that incident cast considerable doubt on any Communist spearheading or anything else other than protests by those who viewed the hearings as undemo-

Beyong that, the chief result of those demonstrations has been to provide a lamentable excuse for the House committee to distribute "Operation Abolition," which has been described most aptly as "a flagrant case of forgery by film."

Mr. Hoover can be forgiven for letting in concern for Red-hunting color his annual reporting. But if he is really worried about anything deplorable arms, let him get about investigating who edited this House committee film, who wrote the narration, and why it is being distributed commercially with the committee's approval.

"The Communist Party has given top priority to (abolishment of the House Un-American Activities Committee) and has assigned agents trained in propaganda and agitation to this project. The Communist infiltration and agitation tactics among youth constitute just one extension of this Communist campaign which is a challenge to all patriotic Americans." - Statement by Representative Francis E. Walter (Dem.) of Pennsylvania, Chairman of the House Committee on Un-American Activities.

On June 1, 1960 Municipal Judge Albert A. Axelrod held court for 62

The F.B.I. Report:

"The judge pointed out that there were ample grounds for conviction in the cases involving the defendants, most of whom were college students, but he added that the defendants were, for the most part, 'clean-cut American college students' who could well be haunted for the rest of their lives by the stigma which a conviction would attach to them.

"In response to this action on the part of the judge, 58 of the defendants signed a statement distributed immediately after he had rendered his decision. It read, in part: 'Nobody incited us, nobody misguided us. We were led by our own convic-

If these defendants had in fact been drawn to the House Committee hearings two weeks prior to demonstrate peaceably, who or what caused them to change from 'peaceful demonstrators" into an irresponsible mob?

(Two months later the FBI issued its 18 page report. Conclusions from it can be read in detail in the July 25, 1960 issue of U.S. News and World Report.)

"A newly mounted campaign to cripple the anti-subversive programs of the Congress, to shackle or abolish the Committee on Un-American Activities, and to discredit J. Edgar Hoover and the Federal Bureau of Investigation is now being launched throughout the United States." (Statement prepared and released by Committee on Un-American Activities.)

It is recognized that newspapers are entitled to offer opinions of topical events. It would seem, however, that an obligation exists to support opinions—if not with facts—by methods other than unfounded statements.

Is The editorial in the Blade, the subject of this pamphlet, based on facts as reported by the Blade itself?

The most obvious contradition is exposed by a news story carried in the Blade itself. In May, 1960, at the time of the riots, the Blade frontpaged an Associated Press story that rioters were squirted with hoses AFTER THEY HAD ASSAULTED A POLICEMAN AND SURGED TO-WARD THE HEARING ROOM DOOR. Seven months later, in the editorial columns, the Blade attempts to alter and change a reported fact with the inclusion of a statement that a film of the rioting is flagrant forgery and that the film had been so edited as to give THE IMPRESSION of mob action.

If the Blade is interested in discrediting the Director of the F.B.I., facts should be obtained as to negligence, usurpation of authority, dereliction of duty, or other malfeasance of office. If the Director is charged with the responsibility of investigation of the Communist menace that should be recognized and not made a basis, in itself, of criticism. Those who assigned him to this task, are the proper persons to receive such criticism, if it is believed that Communism in this country should not be investigated.

If the Blade is interested in discrediting the Un-American Activities Committee the only result which could be obtained would be to help the communists, who are being investigated.

This Student outbreak in California poses a challenge to educators and to parents who want to preserve and strengthen a world in which men and women can enjoy individual political, economic, and religious freedom.

The film "Operation Abolition" is available for club, organization or group viewing—call CHerry 1-4881 (Mr. Wolfe).

People "should arrange to see a documentary film put together by the House Un-American Activities Committee showing another aspect of Communist subversion—youth. This film records the riots during the committee's hearing in San Francisco. The picture shows identified Communist leaders shouting and mouthing insults at the committee . . . The place was packed with Communist sympathizers and dupes already, but the plaza outside was filled with others who wanted to get into the disorder . . . J. Edgar Hoover, Director, Federal Bureau of Investigation, (FBI). (18 page report — July 18, 1960.)

"The Communists demonstrated in San Francisco just how powerful a weapon Communist infiltration is. They revealed how it is possible for only a few Communist agitators, using mob psychology, to turn peaceful demonstrations into riots"

Congressional Record, June 2, 1960, quoted seven Protestant ministers in attendance at hearings when riots occurred:

"It is our certain conviction that this indefensible demonstration against law and order was conceived, planned, and directed by a few hard-core Communist agitators who were carrying out textbook orders on insurrection with classic success."

Readers' Digest, Jan., 1961, by Eugene Lyons, senior editor.

"Starting with the organization of strikes in French and Italian ports to obstruct the landing of American aid under the Marshall Plan, the work of the Red agents has extended to fomenting riots in India, Vienna, Singapore and even in San Francisco, at a recent courthouse session of the House Committee for Un-American Activities."

U.S. News & World Report, July 25, 1960:

"A Communist coup in San Francisco last May proves 'it can happen here' according to the F.B.I.'s J. Edgar Hoover. At that time, trained Communist agents led hundreds of California college students in mob violence at a congressional hearing."

freedom facts, June, 1960:

"On May 14 San Francisco Police Chief Thomas Cahill reported that the riot was caused by professional agitators."

New York Times, May 14, 1960:

"San Francisco: Rioting disrupted a hearing by a House Un-American Activities sub-committee here today. In the domed and marbled rotunda of the City Hall, 200 persons, chiefly students, battled the police for thirty minutes before yielding to swinging clubs and high pressure streams from fire hoses."

Dear Mr. Hoover:

On December 19, 1960 I wrote you requesting a copy of your pamphlet called "Communist Target - Youth" for use in our A. P. Green Management Club programs. As I have had no reply to this letter, and in the event that it has been misdirected or lost, I would like to repeat our request.

We, and the Management of this company, have been quite concerned with the infiltration of Communist ideologies particularly in our colleges and universities, therefore, any information concerning this problem and particularly information concerning the riots in San Francisco during the hearings by the House Committee on Un-American activities would be deeply appreciated. If copies of this pamphlet "Communist Target - Youth" are available we would certainly appreciate 120 copies to send to each of our members. If these are not available, please notify me.

NOTE: The John Birch Society is allegedly an anticommunist organization with branches over the various parts of the country. Our field offices have been alerted to watch its activities inasmuch as its head, Robert Welch, indicated at one time that he thought a group having the appearance of a front organization might be effective in attracting true subversives. Welch has bitterly attacked the Eisenhower Administration in the past in connection with his writings.

Dear

Your letter of January 25, 1961, has been received, and I appreciate the interest which prompted you to write.

In response to your request, it is a pleasure to forward a copy of my report, "Communist Target--Youth" in order that you may have the full background concerning the highly organized tactics employed by the Communist Party in the California demonstrations against the House Committee on Un-American Activities. An analysis of this report will show its purpose was not to defend the activities of the House Committee nor does it cast doubt on the motivation or loyalty of American youth. It is intended rather as urgent encouragement to young people to learn the true nature of this malevolent threat, and to resist being duped into unlawful and unthinking action.

I am also including other material on the topic of communism which may be of interest to you. Additional copies of any of the literature are available upon request and at no cost.

Dear Mr. Hoover:

WESTMINSTER HIGH SCHOOL

Recently our high school had occasion to view the film which illustrated the effect of the Communist Party attack, on the House on American Activities Committee hearing, in San Francisco. This film consed much comment and minor dissent on the part of one or two of our teachers as to the purpose of the film and as to the purpose of the hearings therealyes.

Shortly after the film was shown and after there had been no small emount of discussion among the students and faculty regarding the film, I happened to charco upor the fact that the FBI had made a thorough investigation of the attacks upon the House on American Activities Committee and had issued a report. For the clarification first, of my our position in the matter, and secondly, to pass the information on to our facelty and students, I would like to request a copy of the report if it is sveilable for school purposes. I'm sure that our students would be enlightered and thoroughly grounded on the purpose of the House on American Activities Seamittee. deepl, regreted the control may that crose within our school because of the cheding of the file, but I'm contain, beyond a shadow of a coubt, what the film did much more good within our school and community, then it did harm.

Thank you in advence for your consideration. May I wish you and your staff congratulations upon your post achievements and current work.

Your letter was received on January 23, 1961, and I certainly share your concern over the growing menace of communism.

In response to your request, I am forwarding to you, under separate cover, copies of my address before the National Convention of The American Legion in Miami Boach in October, as well as other material which may be of interest to you.

With reference to your other inquiry, the House Committee on Un-American Activities has as one of its primary responsibilities the recommendation of appropriate legislation regarding subversive activities to the Congress; and I have always felt the Committee makes a contribution in its public disclosure of the forces that threaten America.

The Committee's efforts in behalf of our country naturally represent the reason way the venom of the American communist has been directed against it and this has also been true with respect to this Bureau. The work that the Committee has performed, and is performing, serves as a guide for sincere groups which are carrying on a militant campaign of exposure of communist activities.

Included in the data being cent you are copies of Communist Target--Xouth, which is a detailed account prepared

Deur Sir,

Since the Air Manual Controversy of last February you and your committee have been at the top of my list of favorite Americans. used the booklets you sent me in July and thank you for them and your letter of July 16, 1960.

I am chairman of the Board of Elders here at St. John's Lutheran Church (650 memoers) and lave scheduled for March 5th the film Operation Abolition. I have re d and reread J.Edgar Hoover's report on the San

Francisco riot, of last May, organized against the H.C.U.A.
Since the December 1960 convention of the NCCCUSA, floods of churchflavored propaganda against the film Operation Abolition and against the

H.C.U.A. are pouring into various publications and newspapers.

Please read in "The Christian Century" of Jan.4, 1961, an editorial entitled "Abolish the H.U.A.C.!" and an article on page 14 by entitled "Operation Abolition"; in which Moon says in the last para-

"Ny concern is not to defend the students; some of them were provoked into doing what they should not have done. By concern is that an agency of our government should have a hand in a distortion of the actual story so gross that the net effect is a lie."

Also in the Jan. 18th, 1961"The Christian Century" there is an editorial entitled "Intelligent Anticommunism" which is extremely critical of the H.C.U.A. and of the film "Operation Abolition"; and from page 67

"Critics of the H.U.A.C. film, such as \_\_\_\_\_\_\_ (see the Century for January 4, page 14), point out that it is inaccurate, that the H.U.A.C. will stop at nothing to keep its hold on power."

In my humble opinion this editorial is everything but intelligent. It is typical of the smear tactics that NCCC propagandaists use against dedicated anti-communists.

I believe it is absolutely imperative that these fallacious attacks \ on the H.C.V... must be distinctly repudiated in the press. I would suggest an article by yourself or Mr. Hoover, or Mr. Philbrick, run in "Christianity Today" ( which recently ran a wonderful deries of 3 articles on Communism, by Mr. Hoover and also a recommended reading list by Merbert Philbrick). Thousands of clergymen read both the "Christian Century" and"Christianity Today".

Luch of the leadership of the NCCC is heavily tilted toward the left. The picture is falling together more completely now that the financial "information you have on this new president Nr. 10 Hiller, (from Indianna, a layman, <u>51 vears of are</u>, a millionaire, a business executive, an associate of \_\_\_\_\_\_ I would appregiate having, Who is this UECEINEUREWORK 62-106381-

Dear Mr. Hoover:

At our recent Kanawha Juvenile Council Board of Directors meeting, I had the pleasure of presenting to the membership your very excellent, all inclusive, and enlightening publication regarding Youth and Communism, which was presented by the Superintendent of Documents last fall. I cannot recall the name of your publication and would appreciate your office sending me the correct title and catalog number, and cost, as soon as it is convenient for you to do so. Each year we have an annual meeting and it was my suggestion to the Board that we use this publication at the dinner meeting and make it available to each person attending.

Of course, if it is at all feasible, financially speaking, we would appreciate a limited quantity of thirty copies free, if we could have them. It would be virtually a steal moneywise when its value to the membership is considered. Anything your office could do for us in regard to the above questions would be greatly appreciated.

Congratulations for a job well done, not only in the past but your projections for the American people in the future.

My dear Edgar:

Having served in the past as District Governor of National Exchange Clubs which objectives you are familar, I wish to call your attention to the following. Mr. Hoover, I am attaching a letter dated January 16, 1961, under the signature of Walter J. Bristow, one of our local county senators.

I am sending you a copy of this letter because your name is used in this worthwhile cause, which I think is one of the greatest organizations in America. However, I wish to explain the following as I have stated in my letter to Mr. Bristow and I believe you will agree.

OLUMBIA Mr. Hoover, just three years ago we organized in Columbia a Boys' Club/both white and colored. We have had considerable financial difficulty and are operating with very little funds and at times perhaps a deficit. Every time we set up a campaign to go out in Columbia and solicit the business people for 30-40 thousand dollars to operate this grand organization which is affiliated with the Boys' Club of America, some person sends a letter out using the name of President Hoover or President Roosevelt or somebody and when we get there to collect their contribution, they have already contributed their \$5.00 or so to the National Boys! Club, from which we get no financial assistance. We had not been accepted and approved by the United Fund at the last meeting of the Board of Directors, of which I am a member. Therefore, our only means is mon solicited from out of pocket, which as you realize is exempt from income taxes due to a non-profit, eleemosynary organization.

Mr. Hoover, you recently sent me a copy of your & elect, Communist Target -- Youth. I ordered other copies of this report and have mailed them to one state college in particular for the benefit of the faculty, students, and the administrative personnel of which I am a trustee. I also placed a copy of this report in the hands of Lour very fine Governor, the Honorable Ernest F. Hollings. I have received more compliments in giving this information than

I would highly recommend that copies of this report on Youth vs. Communism be placed in the archives of every library in the Nation and that each and every University and High School in the Nation be sent copies requesting the administrations or principals to discuss this report in a meeting of the entire student body.

I personally want to congratulate you in having the courage to make this report and I would have written you earlier expressing my thanks, but after returning from the National Democratic Convention I unfortunately had a heart attack and have not been in the office until this morning except once or twice.

Doar Ualter:

This acknowledges your letter of January 16, 1961, in connection with a contribution to the Boys' Club of A erica.

Valter, you realize that I have contributed to the Boys' Club of America nationally for many years prior to a Boy's Club being organized in Columbia.

Ye now have an active Eoys! Club in Columbia which is doing a great work. I only invite you to attend one of our meetings or visit the Boys! Club here in Columbia for yourself.

The financial condition of the Boys' Club of Columbia has not progressed as it should and as a Director of this organization I think our finances for this activity locally have been limited or perhaps cut in half due to the fact your letter usually goes out for the national organization just prior to our financial campaign.

The Boys' Club of Columbia has not been approved by the United Fund, or it had not the last meeting I was able to attend. Therefore, I bushly solicit your support for the local Boys' Club of Columbia as we have both white and colored and my friend, J. Edgar Hoover I believe, would agree with getting the Columbia Club on a sound financial foundation so it could support and obtain the facilities necessary for training and rehabilitating these young men which number several hundred members in Columbia, prior to having any citizen or group put on a campaign for local contributions for the national organization.

Valter, I am attaching a copy of Hoover's report on Communist Target--Youth, which I have had for some time, sent me by J. Edgar Hoover and I sincerely hope you will read it, study it, reread it, and interpret it.

Dear

Your letter was received on January 23, 1961, and I deeply appreciate your desire to help combat the growing menace of communism.

Although this Bureau does not have slides or films on this subject, I am enclosing publications which offer citizens suggestions on how to take effective action in fighting the subversive forces in our society today. Additional copies of this literature are available at no charge, if desired. You may wish to direct an inquiry to the Un-American Activities Committee of the United States House of Representatives for what additional help it can offer you.

Dear Mr. Hoover;

I am \_\_\_\_years old, an electronics engineer, an active Mormon and extremely concerned about the insidious spread of Communism and Communist type thinking within our country. Reading your book recently has only increased my concern.

In the past I have not known whether to trust such anti-communist writers as John T. Flynn. But the advent of your book & "The Naked Communist" has convinced me I should have had more faith.

Now I desire to educate myself and others in the full extent of this menace and means whereby we may detect & combat it on a local & National scale.

Would you please direct me to sources where . I may obtain authentic and effective slides, films and booklets on this subject. I would like to present such information to small groups with in my church and among as many acquaintences as will listen.

Dear February 7, 1961

b6 b7С

Your letter was received on January 30, 1961.

In response to your remarks concerning the San Francisco demonstrations in May, 1960, I would like to clarify the FBI's position. It is my firm belief that a broad knowledge of the objectives and operations of the communist conspiracy is essential if Americans are to effectively resist its influences. This Bureau prepared a detailed account of the highly organized tactics employed by the Communist Party in the California demonstrations against the House Committee on Un-American Activities. Enclosed is a copy for your ready reference. An analysis of this report will show that its purpose was not to defend the activities of the House Committee, nor does it cast doubt on the motivations or loyalty of American youth. It is intended that rather as urgent encouragement to young people to learn the true nature of this malevolent threat and, armed with that knowledge, to resist being duped into unlawful and unthinking action.

Our only interest in this matter was to state the true facts and lay them before the public. This has been the FBI's policy over the years in vigorously discharging its responsibilities in all phases of its investigations—subversive and criminal. It will be our policy in the future, and I intend to continue to warn the American people against those evil forces which would destroy our way of life. I am sure most public-spirited citizens would not have it otherwise.

Dear Sirs:

During the month of December 1960, the HUAC Film "Operation Abolition" was shown at Lehigh University. After the showing of the film a discussion period followed. During this period of discussion, the factual authenticity of the film was attacked as was the HUAC itself.

I have heard via Fulton Lewis Jr's radio program that J. Edgar Hoover has released a report which substantiates via documentation, the essence of "Operation Abolition"

If possible could you send me a copy or copies of this report. There is continued interest at Lehigh to present the accurate side of this question to those who have been duped or fooled by those following the Communist line.

I would like to congratulate the F.B.I. and Mr. Hoover personally for the excellent job well done.

Dear Sirs:

About nine years ago a young man who was fond of me got himself drunk in order to get up the nerve to tell me of former connection with Communism. And he thereby answered the question as to why he and his closest friends seemed to be such misfits in our society.

I began to gather all the data I could on how the Communists operate and soon after the May 1959 meetings in New York, I began to write an article on the threat of Communism to American youth,

agent. Now a copy of your booklet, "Communist Taget--Youth" has come into my possession, and it agrees so well with my information that it inspired me to try to publish my article. But I need some help from you.

- (1) Will you please send me a list of subversive organizations listed as such by the F.B.I.! It must be up to date so as not to get a magazine into trouble?
- (2) Do I have your permission from your booklet, "Communist Target -- Youth"?
- (3) Would you wish to read such an article before it was offered for publication?

And may I \*\*\*\* ask you to rush, please? I am still ill and can't, but this piece is ready and needs only the work of my typist to add the list and quotaions. Then it would be ready to sell.

Mr. J. Edgar Hoover Director, Federal Bureau of Investigation Department of Justice Washington 25, D.C.

Dear Mr. Hoover:

We have read with interest your report, "COMMUNIST TARGET YOUTH". We have been told by other persons in the Seattle area that you make this publication available free of charge if there is proper distribution.

The enclosed catalogue sheet is an advertisement which we will be mailing out to most of the churches throughout the State of Washington, and we would appreciate having a good number of this publication available for those who are using the film strip "COMMUNISM ON THE MAP" and "OPERATION ABOLITION".

As our advertising indicates, we are making this program available free of charge.

Within the last three weeks, Seattle has been challenged from every means of communication regarding the importance of see-ing these films and it has become more important as critics have tried to discredit or condemn the message and presentation of the films in this area. This has created greater interest, and they are being used widely, being made available by Boeing Airplane Company, Sand Point Naval Air Station, ourselves and a few individuals.

If these are made available free of charge, we would be willing to distribute 2000 to 3000, or whatever number you would make available to us.

Sincerely yours,

TESTON BY FILL SERVICE. Inc. 2 FEB 21 1961

### COMMUNISM ON THE MAP

This filmstrip documents some grevious mistakes and blunders made by various agencies and institutions in the United States which aided world Communism and did injury to the security of our nation.

However, nothing in the filmstrip is intended as a reflection on the patriotism, loyalty and integrity of any agency of government, the nation's press, or any other institution. Some of the documentation does reflect on the vulnerability of individuals and institutions to the cunning Communist propaganda and to the unseen, insidious and powerful influences being brought to bear throughout our society by Communist intrigue and Fifth Column penetration.

#### The National Education Program

This very important filmstrip and film are made available FREE OF CHARGE, to churches and other groups interested in helping to inform and shock their friends and neighbors into an awareness of international Communism's continuing takeover of the world.

This color-sound filmstrip traces the expansion of international Communism from Lenin's takeover in Moscow in 1917 to the massive penetration of Latin America. Lenin said in 1924: "First we shall take Eastern Europe; next the masses of Asia. Then we will encircle that last bastion of Capitalism, the United States. We will not have to attack. She will fall like an overripe fruit into our hands." How well the Reds have prosecuted this plan for conquest! The full documentation of every move, every takeover by the Soviets, is presented in dramatic sequence. Activities of the United States which unwittingly aided the Communists at some important steps along the way likewise are documented.

# "Deeply Perturbed"

"I AM DEEPLY PERTURBED by the softness and complacency, and, you might even add, the thoughtlessness that prevails in the West at the present moment. The West has moved from one retreat to another in all fields, not just military and political. I do not find adequate resolve or thoughtfulness to stem this trend. The West is too soft, too selfsatisfied, too blind, too paralyzed and anesthetized morally to act with vigor at the critical points in life and the world. A person or a culture or a civilization cannot rise above its inmost principles. In the Western World the principle is a higher standard of living, more and more comfortable existence, nothing great, nothing historically profound—nothing!" —CHARLES MALIK Lebanon delegate to the U.N.

Lilli u I have received your letter of February 13, 1961. with enclosure. I um, of course, most appreciative of the confidence shown in me by the request of the Fresident that I continue to serve as Director of the FDI. Your warm sentiments are indced welcome.

I can readily understand your deep concern over the grave threat posed by communism. Your desire to be of assistance in combating this menace is most encouraging. I have always felt that private citizens, acting through their civic, labor, religious, educational and similar organizations, constitute one of our most effective weapons for combating the Communist Party. The inidative displayed by private citizens in acting to thware the sime of the communists is a tribute to our American way of life.

It is my firm belief that a broad knowledge of the objectives and operations of the communist conspiracy is essential if Americans are to effectively resist its influence. My book, "Masters of Deceit," was prepared as an easy-to-read primer on communism for students and others who should be aware of this conspiracy.

I am sending, under separate cover, several items ting forth my views on this subject which you might like to have:

Mr. J. Edgar Hoover, Director Federal Bureau of Investigation Washington 25, D. C.

Dear Sir:

The enclosed clipping is from our morning paper.

Believe me, I am becoming very alarmed about the Communist threat to our Nation.

Last Fall, I protested to the Columbia Broadcasting System about the re-run of Ed Sullivan's Moscow Show. It came right after Castro and Khrushchev, with his desk-pounding shoe, disrupted the entire country with their undiplomatic behavior at the U. N.

During the Democratic Convention in Los Angeles, a press
release stated that actors
were in the thick of Democratic Party politics
actively seeking a platform plan to ban nuclear tests. Other
star sponsors of the "sane" committee included Marilyn Monroe,
Marlon Brando,
Jack Lemmon, Gregory Peck and
(Dateline Los Angeles, June 19 (UPI))
To it nossible that all of these entertainers want to

Is it possible that all of these entertainers want to sap our country's strength, while these "scared" doctors and scientists in the Soviet Bloc sit back and let these stupid people do their Communist work for them?

I received a letter in reply to my blast from CBS, telling me that Sullivan's Show was sponsored by the State Department. I knew that. I also know that some of the employees
of this same State Department took off for Russia with State
Secrets. CBS further "explained" to me that given a chance,
the Russian people were found to be quite friendly! How cozy.

Frank Sinatra so far forgot his U. S. citizenship that he deliberately hired a known Communist to do a writing job for him and cancelled the deal only because the late Ward Bond, John Wayne, the general public and his own family, stepped on him.

REG 67

CORRESPONDENCE

b6 b7C I wrote to Ward Bond and told him how much I appreciated what he and Mr. Wayne did. I didn't try to write to Mr. Wayne as I knew he was in Texas filming "The Alamo." I received a very nice reply from Mr. Bond thanking me for my letter and he said, and I quote — "The individuals you speak about, I assure you, are a very small minority of those in the motion picture business. Believe me, the vast majority in our business are perfectly normal, hardworking, honest Americans who have as great a dislike for the Communistic ideology as yours."

And further, still quoting Mr. Bond --"there doesn't seem to be much we can do about it except to join hands with one of the many patriotic groups who publicly protest against these pictures and the use of Communists in their production."

Personally, I don't believe Linus Pauling has a list of names of doctors and scientists in the Iron Curtain countries who are supposed to be against nuclear testing. He is simply using this mythical list in order to get gullible people in the U. S. to fight against our nuclear tests, thereby weakening this country that much more. By using actors and actresses and TV personalities, it assures them of vast audiences to further their aims.

I'm not kidding. I'm scared. When I read in the daily papers that we are to get soft with Russia; that stars of stage, screen, radio and television are against our nuclear testing; that a man who is a personal friend of our President thinks nothing of hiring a known Communist; and Mr. Khrushchev is shown on television thundering to the American people, "Your children will be raised under Communism -- "you know, Mr. Hoover, I believe him! But it makes me mad enough to fight back!

Let those learned doctors and scientists (if they exist) cringe before their leaders. I think it is wonderful that a working housewife can write to the Director of an important department in her Nation's government and tell him her thoughts and feelings, without fear. I'm deeply grateful. I'm glad Mr. Kennedy kept you at your post, sir. I feel safer with you there.

President Kennedy, in his Inaugural address, said, "Ask not what your country can do for you -- ask what you can do for your country."

So, I'm asking, sir, what can I do for my country?
Sincerely,

b6 b7C ditorial

In his book, "Masters of Deceit" J. Edgar Hoover, director of the federal bureau of investigation, tells the story of communism in America and how it operates in Trojan horse fashion.

He relates in particular the red tactics of mass agitation and how certain issues are exploited in the effort to induce reputable citizens into becoming dupes of communists and advocates of communist causes.

"The party searches American life for agitational points: The eviction of a family, the arrest of a Negro . . . a miscarriage of justice, the dismissal of a teacher, a shooting by law-enforcement officers. Some of the cases, unfortunately, do reflect mistakes or blemishes in American society. Others are twisted by the party into agitational items."

The cautions of Mr. Hoover should be taken into account in any observation over a case such as the one involving Morton Sobell. He is serving a 30-year prison term which began in 1951 following his conviction in federal court of conspiracy to commit espionage. Sobell was then linked with Julius and Ethel Rosenberg who received the death sentence for passing atomic secrets to Russia.

For years Mrs. Sobell and some Sobell sympathizers have been agitating for the release of Morton Sobell. The supreme court has turned down the petitions in Sobell's behalf and the appeals to the President for a new trial or executive pardon have not changed the situation.

Now some of the agitators for the man's release have extended their agitations. Certain clergymen are trying to gather support among unsuspecting church people.

Sobell had his day in court prior to his conviction. He has been the beneficiary of our "due process of law." His case should not be allowed to become a new agitation point for the purpose of destroying popular faith in our judicial system.

Some of the persons who are working for Sobell's release claim they are opposed to communism and are interested only in justice

Reputable citizens who are aware of how the masters of deceit carry out their work in this country are not going to be caught in a ruckus over Sobell that appears to fit the red pattern.

Persons who do promote causes as this one are rarely, if ever, identified with protests over the Ukraine murders engineered by Khrushchv, the Soviet killings of American flyers, the incarceration of Christian leaders in communist China or the brutalities of the reds in suppressing the freedom fighters in Hungary.

The freedom-for-Sobell agitators probably won't have much success with their petitions among knowing citizens in this area. The people who have been duped into this operation in the name of Christian charity would do well to disassoriate Chainsplyes with a political matter of questionable origin.

Dear Mr. Hoover:

Your publication entitled "Communist Target -- Youth" has just arrived.

You were very kind to take time out of your busy schedule to answer my letter personally. Let me assure you that this humble gesture is very deeply and sincerely appreciated. Ever since I was a little fellow I have admired you and your department very much. You have done much to maintain the freedom which we all cherish so greatly here in America. May your good work continue.

Many times we are criticised, sometimes the criticism is just and sometimes it is unjust. Likewise, praise for a job well done is often neglected, and even then when it does come it is often in the form of a wreath. So, congratulations once again for a job through the years well done.

Mr. Hoover, as a fellow citizen of this great country, I would like to say that if I may ever, in any way whatsoever, be of service to you, please let me know. It would be a great honor and privilege to become a working part of your great team. I have worked with youth for some time now, both here in our Mountain State and also have many individual contacts with friends in every State Government throughout the United States and Canada. Also many other prominent people in other youth fields nation wide who work with young people. The threat of communism enfringing upon our youngsters stirs me to action.

PLEASE REMEMBER, IF I MAY EVER HELP YOU HERE IN WEST VIRGINIA, OR ELSE-WHERE THROUGHOUT THE NATION, IN A PRIVATE OR FULLTIME CAPACITY, REGARDING THE ABOVE MENACE TO OUR "GOVERNORS OF THE FUTURE", PLEASE LET ME KNOW.

#### SMOKEY BEAR SAYS:

#### FOLLOW THESE FIRE PREVENTION SUGGESTIONS:

#### 1. Crush Out Your Smokes!

Smoke in the woods only when stopped at a safe place. Clear a space down to mineral soil. Drop your ashes on this cleared spot; grind your match, cigarette butt or pipe ash into the soil with your shoe. When driving, use your ash tray; NEVER throw burning material from any vehicle.

#### 2. Break Your Match In Two!

Always feel the burnt end before throwing your match away. Be sure it's DEAD OUT.

#### 3. Drown Your Campfire!

Before building a fire, scrape away all inflammable material from a spot 6 feet in diameter. Dig a hole in the center and build your fire there. Keep it small. NEVER build it against trees, logs, or near brush. Dead wood or branches may be used as fuel. Before leaving, stir the coals and soak them with water. Make sure the last spark is DEAD OUT by feeling the embers with your bare hand.

## Sportsmen Accommodations

#### ON WEST VIRGINIA FARMS

Each year hundreds of thousands of sportsmen take to fields and streams for rest and relaxation. Quite often there is not enough commercial housing or feeding facilities to take care of the demand, or none is available in the area where the sportsman wishes to hunt and fish,

This presents an opportunity for a new source of income for farmers who are located near good hunting and fishing areas.

This year, for the first time, the West Virginia Conservation Commission and Department of Agriculture are cooperating to compile a list of farms that will furnish sportsmen with food and lodging.

To use our natural resources wisely is to live better

This star began with the dawn of time. For in Genesis it states that in the beginning God created the heavens and the earth. Thus man has always looked to the heavens for a sign. Here early man found a star, one which did not seem to move. This he set as his guide to find his way to his home or some distant land. We know it as Polaris. Wherever you go, you will find legend of how the stars came to be and why certain stars do certain things or move in what seems a mysterious manner.

So you will also find that Stars have played a great deal with man and his visions. They were used by Leif Ericson, Christopher Columbus, by the early Phoenicians to guide them through their explorations.

#### New Masthead Depicts West Virginia

YOUTH NEWS has grown in popularity since its creation in May, 1959. Many readers, both young and old, have written encouraging congratulation letters and have suggested a new masthead which would depict our Mountain State's natural resources. Therefore, your editor approached Mrs. Rae Chambers, an artist, with the recommendations that he had received. The resultant masthead displays the fruits of Mrs. Chambers' artistic efforts, and we now have a native resource surrounding the words "YOUTH" which is West Virginia's greatest resource.

The new masthead, YOUTH NEWS, depicts our official Mountain State outdoor family: the state animal, the black bear; the state bird, the cardinal; the state tree, the sugar maple; and the state flower, the rhododendron. Here is also a story that is immediately projected on the reader's mind as he focuses his attention upon the new mast head, YOUTH NEWS, and its outdoor environment:

"Let us never remain static and sitting as our black bear appears, but rather let our thoughts and actions about natural resources be ever-soaring toward a more abundant future as is depicted by our state bird in flight. And in our everyday walk of life, let our concepts and attitudes about these resources be ever-changing and expanding. As the leaves of the sugar maple mature with changing colors, so let our viewpoints of conservation change and broaden with a fresh perspective. If we carry through with such virile thoughts and deeds about our streams, wildlife, soil and forests, our hearts and minds and way of life will become as broad and as strong as the trunk of our state tree and ever as beautiful as the flowering rhododendron." # What To Do - When Lost In The Woods

豆

FOREST

EVENT

200

S

ONLY

remember

A CLEAR HEAD WILL FIND ITSELF. If everyone remembered this, there would be fewer reports of persons lost in the mountains and forets, according to United States Forest Service rangers.

Merely being out of sight of others in a strange forest gives many a man the creeps—a natural feeling but a dangerous one. Never yield to it. In the mountains the grip of panic is too often the grip of death.

"Finding oneself when lost is the test of a man," says a veteran of the Forest Service who has seen men, women, and even children save themselves by sheer pluck and presence of mind. Loss of mental control is more serious than lack of food, water, or clothing or the possible proximity of wild animals. The man who keeps his head has the best chance to come through in safety.

The following helpful rules are worth remembering:

- 1. Stop, sit down, and try to figure out where you are. Use your head, not your legs.
- If caught by night, fog, or a storm, stop at once and make camp in a sheltered spot. Build a fire in a safe place. Gather plenty of dry fuel.
- 3. Don't wander about. Travel only downhill.
- 4. If injured, choose a clear spot on a mountain spur and make a signal smoke.
- 5. Don't yell, don't run, don't worry, and above all, don't quit.

If caught out toward nightfall, the traveler is urged to find a shelter quickly—a ledge, a large boulder, or a fallen tree—clear a space of ground, and build a fire. If without a blanket, he may build his fire in a deep hole, cover 6 inches of hot coals with 6 inches of earth, and sleep on the warmed earth. Failing fire, one should use leaves and branches to shelter himself as best he can. A boy lost on a southern California mountain peak spent three nights safely in this manner.

Signal fires are the quickest way to attract attention. Build them in an open spot, cleared of all flammable material so that fire won't spread into the forest—you don't want to burn yourself up, of course. In the daytime throw green branches and wet wood on the blaze to make smoke. The eagle eyes of the fire lookouts or the observers in forest patrol planes or commercial ships may spot your smoke. It is difficult for an observer in a plane to see a lone man in the forest, so the lost

person must use ingenuity, and the signal smoke is the best method of attracting attention.

Keep the old brain in commission and the chances are you will come out of the woods on your own feet.

#### It's a Tree Country

By JEAN CHANEY Hurricane High School

Today you will find the forests everywhere; in the polished floor of a family recreation room, in the heart of an ocean liner, in the morning newspaper, or in the new house just across the street.

Yesterday, as today, the forest was an essential part of the American way of life. Conestoga wagons rolled along the Oregon Trail, flatboats floated down the Missisppi, and wooden bridges spanned the streams along the Cumberland Road. The people were moving west on their way to build a a great and prosperous nation. As America grew, so grew her needs. Wooden shelters sprang up everywhere in the new settlements and oxen pulled wooden plows through fertile fields.

Time has passed, and America has continued to grow. Now her needs are greater, than ever, and our interests in keeping her green should increase day by day.

Perhaps the slogan "Keep America Green" would mean more, if each of us would stop to think of America without trees. The brilliant reds and golds that signal the coming of autumn, the first green flush that says plainly, "Winter is over," and the cool shade so welcome in summer would all be gone. Would you enjoy a country like this?

#### Conservation Conversation

By DR. WARDEN M. LANE **Conservation Commission Director** 

There are certain fixed expenses which the Conservation Commission must meet each month, including salaries, rents utilities. gasoline, oil, trout food and others. During the past decade, however, operating expenses have nearly doubled, yet prior to January. 1960. the income from hunting and fishing licenses had remained almost stable. When the legislature increased the hunting and fishing license fees, which became effective January, 1960, the Commission entered a new

Over the years law enforcement, fish, game, forestry and education programs have been increased in line with the income derived from the sale of hunting and fishing licenses. With the possibility of an increasing hunting and fishing population, activities must be stepped up in order to provide the needed recreation facilities for present and future sportsmen.

A few years ago the Commission realized that additional income was needed. Technical personnel, working for substandard wages, were using the Commission as a training ground and then resigning to accept better paying jobs in other state conservation departments or federal agencies. Hunting for some species of game will be available during 79 days on the 1960 license, excluding Sundays. Figuring the number of Saturdays to hunt during 1960, plus a six-day vacation, the hunter will pay only 25 cents per day (less than the cost of a pack' of cigarettes) for 20 days of gunning. Those persons fortunate enough to hunt each day of the season will be paying less than seven cents per trip in license fees. Hunters desiring to hunt through the grouse, rabbit and quail seasons, which run over into 1961, must purchase a new license.

Persons 65 years of age and older are not required to purchase a hunting license.

Those fishermen who purchased their licenses early in 1960 will benefit from a year-round open season on all species except trout. Trout season will run a total of 240 days (April 30 through December 31). A resident fishing license costs \$3.00 and a Trout Stamp, \$1.00, with a 15-cent issuing fee for each. Fishing on the National Forest requires a National Forest Fishing Stamp (\$1.00).

For a savings in license fees. the sportsmen should consider purchasing the combination hunting and fishing license.

Despite the increase in license fees imposed at the beginning of 1960, the West Virinia hunter and fisherman still is getting a great bargain for his money. The revenues derived from these license sales will be used to finance a better conservation proram during the coming years.

#### Game Management in West Virginia

By T. R. "PETE" SAMSELL

(In coming issues, Youth News will attempt to introduce its readers to the various programs within each respecitve division of the Conservation Commission)

WILDLIFE: All forms of undomesticated animal life may be considered wildlife. This summary, however, will deal with the game animals and birds of West Virginia and the various factors involved in their management. Future references to wildlife will refer to West Virginia game animals, although the term wildlife includes many kinds of animals different from those found in our state.

A RENEWABLE RESOURCE: Wildlife is referred to as a renewable natural resource. The term renewable indicates that wildlife can be replaced or contained, through proper management, in the same way that we manage our forests, soil and waters. Opposite to a renewable resource would, of course, be a non-renewable resource such as coal, gas, and oil. Once spent, these resources are gone forever.

OWNERSHIP: As a renewable resource, wildlife belongs to all of us and, we hope, to future generations. In order to insure proper use of our valuable resources, a State Conservation Commission has been established, whose duties are to manage our wildlife and other natural resources so as to provide the greatest benefit to the greatest number of people both-now and in the future.

STATE, NATIONAL AND INTERNATIONAL MANAGEMENT: Proper management of wildlife is not confined to West Virginia. Each of the states has an organization similar to ours. Mexico. the various provinces of Canada and, in fact, nearly everywhere in the world, game management is practiced.

Some forms of wildlife do not stay in the same, areas, but migrate from one section of the country to another, as shown by our migratory waterfowl, including wild ducks and geese. It is obvious that state regulations are not sufficient to effect proper control of these forms of wildlife, thus making federal management and control measures necessary. In order to handle this problem, the United States Department of Interior, Bureau of Sport Fisheries and Wildlife was established.

MANY VALUES: The game animals and game birds in West Virginia offer hunting pleasure to an estimated one-third million people, while the thrill of seeing animals in their native habitat is enjoyed by thousands more.

#### GAME MANAGEMENT IN WEST VIRGINIA

Game work in West Virginia may be generally classified into three groups:

#### RESEARCH:

Wildlife investigations are studies designed to furnish information necessary to the intelligent management of our wildlife resources. Some of the objectives of a wildlife investigation are:

- 1. Food habits of the animal under study.
- 2. Shelter requirements.
- 3. Reproductive information.
- 4. Relative abundance.

Investigations in West Virginia have been conducted, or are presently being conducted, on wild turkeys, deer, quail, rabbits, ducks and geese, black bear, gray squirrel, woodcock and mourning dove.

#### DEVELOPMENT AND MANAGEMENT:

Information gained from investigative and research projects provides the facts needed to prepare a worthwhile development and management program.

Wildlife development work is aimed at producing desirable changes in the factors which limit a game animal population. The final goal is usually a population increase which will provide surplus animals or birds for annual harvest by the hunter.

#### PRIVATE AND PUBLIC HUNTING AREAS

Wildlife is a product of the land, and to this source the hunter must look when seeking his target.

#### PRIVATE HUNTING LANDS:

Most of the hunting land in West Virginia is privately-owned farms or forest land. It is estimated that as high as 80% of the animal game harvest comes from this land. In most cases, land-

#### Youth News and West Virginians Meet the Nation

Your editor has recently had the privilege and pleasure of representing YOU and West Virginia at two national conventions this year. In May, we were invited to the American Association for Conservation Information annual convention in Miami Beach Florida; and in August, presented the story of YOUTH NEWS to members of the National Conservation Education Association at their annual meeting in Oneonta, New York.

YOUTH NEWS received a very warm and friendly reception from both groups, and we hope that YOUTH NEWS' merits and needs will be recognized and similar publications started in other states throughout our nation. Already other states have requested additional information and have explained that they are hoping to start such a youth venture in their respective states.

Your editor attempted to acquaint both conventions with the specific details of the YOUTH NEWS story-its creation, its purposes, its format, its cost and the philosophy behind it, which is this: "The future will not be in our hands. Within our control is the course of the present but only the shape of the future. Our hope for successful conservation practices is within the heart and mind of every young person throughout America. It is to these inner chambers of understanding and sympathy that we must direct our appeals."

#### What Is a Sportsman?

A sportsman among hunters might be defined. as one who hunts for the thrill of hunting and enjoying the outdoors, and not for the game he brings home; one who respects all laws and the right of private ownership, asking permission before hunting, and conducting himself in such a manner that he will be asked to return; one who leaves the fields and woods in the same identical condition in which he found them, except for game he harvests; one who is selective in his hunting, does not shoot and look afterwards, and abides by the Ten Commandments of Gun Safety; and, one who is willing to share the thrill of the hunt with others, and do his part in preserving and improving this great sport.

#### Mecca of the Soul

fers, or do you want to actually help keep Mother Nature well-balanced by helping harvest her wildlife? Is it for the conversation and fellowship after the hunting day is over while you sit before an open campfire with your hunting companions; sharing your future dreams, ambitions and plans with friends? Is it the beauty of the green valleys, streams, trees, birds, wildlife, or the desire to climb to the very top of a mountain to capture and record on the screen of your mind a sunrise, or crimson sunset?

A million things flash through your mind, because it is truly another world—a world of selfexamination. One thing is evident, though—that through our close relationship with Mother Nature. the daily paths we tread will be firmer, our hearts stronger, and minds freer.

It is very difficult for me to put into words the way a person really feels, especially since hunting season is such an intangible, but rewarding, personal and memorable experience. But there is one thing I do know-the very same quest and thirst for the outdoors during hunting season or any other time, and the unexplained reasons that call us here, will help us find what we are searching for-not that we alone will have pride in what we discover—we will be proud all right, but yet humble. As James Michener has said, "This is the iourney that men make: to find themselves."

I believe that this great outdoors is the Mecca of the Soul-and if man travels here, he will find himself, and receive the ingredients of fellowship, faith, guidance, wisdom, knowledge, contentment, understanding, conviction, peace, courage and charity, through a personal communion with his Creator, God, that will aid him in helping make our world a better place in which to live.

WHAT DO YOU THINK? GOOD HUNTING!

**Hunting Hints** 

Hunters who seek out wilderness game should take certain precautionary measures before going afield. The Winchester News Bureau recommends the following items as a basic auxiliary kit for wilderness hunting:

1) A sharp knife. While one knife is a necessity, two are even better. Why not take a good sturdy clasp knife, (Swiss army type, for instance) as well as the usual sheath knife. If you have room, a small sharpening stone will come in

2) A 20-foot length of strong nylon rope. Light and compact, the extra length will come in handy in handling big game kills. If possible, also carry a small, lightweight pulley (aluminum or light allov).

3) A good compass. Avoid cheap models: this is one area where the hunter shouldn't skimp. If you do not know how to use a compass correctly, buy a small pocket-sized explanatory book. Take the book along with you; it will resolve many of your doubts.

4) Buy a topographical map of the area you are going to hunt. They are available from the U. S. Geological Survey in Washington, D. C. Keep map in waterproof pouch.

5) Take a good supply of kitchen matches in a waterproof container. Keep these in reserve and never use them unless absolutely necessary. Instead, carry at least one good windproof lighter and a supply of other regular matches.

6) Take along some concentrated food or chocolate bars. Light in weight, they will provide energy when it is needed most. If you are unsure of an area's water, take along a small box of water purification tablets.

7) A light waterproof ground cloth 6'X6'. This will provide any number of useful functions if the hunter is caught overnight in the woods. Synthetic materials supply the needed lightness.

8) Make a small packet containing the following items: fishhooks (various sizes); fish line; sinkers; nylon line for small game snares.

9) It might not hurt to read a book or two on survival or "living off the land." After all, if there is a simple known way of doing things, why not take advantage of other people's knowledge and save yourself a lot of trouble?

#### **PUBLIC HUNTING LANDS:**

Public hunting areas managed by the Conservation Commission of West Virginia and the United States Forest Service supply more than one and one-half million acres of public hunting lands in our State. These areas include:

Bluestone Reservoir Game Mgt. Area, Summers County, 19,000 acres.

Elk River Public Hunting Area, Braxton County, 15,000 acres.

Chief Cornstalk Hunting Ground, Mason County, 10,000 acres.

Clifton F. McClintic Wildlife Station, Mason County, 2,400 acres.

Nathaniel Mountain Public Hunting Area, Hampshire County, 9,000 acres.

Short Mountain Public Hunting Area, Hampshire County, 8,000 acres.

Sleepy Creek Public Hunting Area, Berkeley and Morgan Counties, 22,000 acres.

Pleasants Creek Public Hunting Area, (Tygart River Reservoir). Taylor County, 1,000 acres.

Lewis Wetzel Public Hunting Area, Wetzel County, 5,228 acres.

Williams River Public Hunting Area, Pocahontas County, 800 acres.

Monongahela and George Washington National Forests, Nicholas, Webster, Greenbrier, Pocahontas, Randolph, Tucker, Grant, Pendleton, Hardy, Hampshire Counties, 900,000 acres.

Many of these areas were purchased from funds derived from the sale of hunting and fishing licenses and are managed from the same fund. As a result of these public hunting areas, future generations of hunters are assured of public areas where their sport can be enjoyed.

Chief Longfeather's Story Corner:

#### "The Rabbit and the Pussy-Willow"

By HERB MOORE

Many many Moons ago, in the early dawn of the world, rabbits were like all the rest of the animals in the woods. They had long tails and four feet which were of equal size.

Rabbits were happy people, always running around, eating and singing. They sang a song such as this, I am a happy little rabbit, a happy little rabbit, I am a happy little rabbit, a happy little rabbit, all day long as they ran about and did nothing but eat food.

It was the time of the Green Corn festival, and the squirrels began to fill their houses with food, that one of them said to the rabbit, winter is coming it is time to store food, the rabbit laughed and said there was plenty food, and went on his way singing, I am a happy little rabbit, happy little rabbit, eating his stomach full of clover. When suddenly, it began to snow.

The rabbit became very hungry, when the great white blanket covered the forest, and he began to search for food. After three sleeps, he found a willow tree and looking up he saw some nice juicy buds way up in the top of the tree. He became very happy once more, and started to run around the tree singing his happy little song. As he ran around the tree it began to snow, and the harder it snowed, the harder he ran and sang I am a happy little rabbit, happy little rabbit.

As he ran around and around the tree, and the snow kept falling, he packed the snow as he ran around and kept getting higher and higher. At last he could look over and see the tender willow buds. He jumped into the branches and began to eat. He ate so much he fell asleep and after two moons the sun came out and melted the snow.

The rabbit upon awaking was startled, for far below was the earth. It is not known whether he fell out of the tree because he was afraid or whether he jumped out, but out of the tree he came. When he landed, he hit his mouth on a stone and landed on his two front feet and looking back up into the tree he discovered that part of his tail was caught in the fork of the tree. That is why rabbits today have a split lip, two short feet in front and a short tail. It is also why we can look across the valleys in the spring and see the pussy willow. Thus it is and always will be until the heavens fall, as it is told among the Sen-

About this time each year many young people and adults respond to the call and the wisdom of the wild world, by preparing for their annual pilgrimage to the birthplace of the soul. Very soon, and perhaps even now, the pulse of the hunter, and instinct of the hunted, will again quicken at the first hint of sharpness in the air, as another hunting season unfolds over our beautiful Mountain State.

An estimated 350,000 enthusiastic sportsmen have waited patiently for this moment since the close of the hunting season last year. Excitement and glamour of a recent hunt fills the air! Hunting trips of by-gone years have been revived, and every moment of adventure acted out and relived. The big one that got away is usually the topic of conversation everywhere—at the office, school, on the street, over a coffee break, in the home, the plant, the bus, across the fence, over the telephone, and just anytime or anywhere a group of outdoorsmen get together.

The guns and hunting equipment have been taken out of storage, cleaned and oiled with every safety precaution. Many hunters have joined a gun or sportsmen club during the year to keep abreast with new game laws and also sharpen up the old shooting eye by target practicing. Still others have taken field excursions with old friends and hunting partners, to scout for new hunting territory or prospective game, as well as the exercise to get in good physical shape.

West Virginia's 10 million acres of forest land is not limited to the gun hunter alone, because the bow and arrow enthusiasts have also been spending much time readying themselves for the big hunt. These modern day Robin Hoods have restored once again the interest in an ancient sport and have helped make archery and our wooded

wonderland literally another "Sherwood Forest" and a playground of sporting activities.

Archery has really gained momentum in our "Little Switzerland of America" in the past few years and its popularity has produced many outstanding bow and arrow hunters who have proven themselves to be high caliber type sportsmen.

Several species of wildlife, including deer, bear, and turkey have stimulated the hunter's curiosity by challenging him to match his skill and cunning with their wisdom in the great outdoor sports arena.

So, the stage is set, the sportsmen are ready to carry out their pleasant and enjoyable roles, and the curtain is about to open on another successful hunting season. All of the necessary preparations have been made for opening day—the hunting area scouted; the landowner's permission granted: the gun kept in good repair; a lot of small items such as tape, safety pins, a small first aid box, matches. dry socks and other assorted "little things" added to the hunting equipment in case of an emergency situation.

The true sportsman realizes he has been somewhat inactive for a few months and must take it easy and not rush, once he reaches his destination and his hunting journey begins. He understands his physical limitations and takes the necessary steps not to tax his endurance too heavily. His good judgment and experience have revealed the importance of conserving the valuable human resource. He is also thoughtful of his family or acquaintances when he tells them where he can be contacted in case of an urgent emergency. Many hours, and sometimes days, are consumed by Conservation Commission personnel trying to locate an individual who thoughtlessly forgot to mention his hunting locality.

#### Mecca of the Soul

The wise sportsman studies earnestly and diligently the Ten Commandments Of Hunting Safety All of this special preparedness just means one thing! Happy hunting days are here again!

It is opening day of hunting season.

In the stillness of the morning hours, you find yourself sitting alone on a moss-covered log, far from civilization. The autumn air is cool and crisp. Your eyes and ears are alert to the fading symphony of thousands of night insects cheeping in complete unison and harmony with Mother Nature. In the distance you hear the hooting call of the native Great Horned Owl. All proclaiming that the night with a thousand eyes will soon be o'er . . .

Suddenly! without warning, the morning sun breaks through the tree top openings and its brightness and beauty lightens up the whole forest community. Then the silence is broken by the snapping of a decayed twig a few feet to your left . . . In the branches overhead you see something move and hear the rustling of leaves . . . Your heart pounds . . . You're wide awake . . . Every movement catches your keen roving eves-Excitement grips the atmosphere-You are waiting for the unexpected to happen . . . All at once, you glance to your left again, and discover that the noise you heard a moment ago was only two ground squirrels chasing each other and playing in the fallen leaves.

A certain unexplained calmness and serenity seems to flood the inner chambers of your heart. You then realize that you are no longer alonehere is an unseen guest and friend sitting beside you on the mountain overlooking the valley below. The trees, wind, clouds, camouflage of wildlife, mountain path, and even the birds take on new meaning. Your appreciation of these natural resources increase with the stillness.

How alive and beautiful the woods appearpainted here and there with a touch of color like the rainbow by Skillful and Artistic hands. You have never felt this way before in the crowded complex work-a-day world you left beyond the winding rivers and trails which led you here under the canopy of heaven. After discovering that you are not alone, a new depth and accent on life gradually develop. Experience has taught you that it always brings an inner peace to one's soul when a person realizes his faith is well founded in his co-pilot who assures him to follow and fear no danger.

But, you ask, what else was I searching and seeking for when we planned our hunting trip? Can it be explained? Is it something tangible? What did I expect to find in this vast solitude of wilderness?

What compelled me to take this hunting journey that carried me far away from our scientific-

international tensions, guided missiles, atomic bombs and submarines, rockets, satellites, and sputniks invented by some who want to conquer, control, and dominate other worlds as well as our own?

What is this inscrutable force that makes you feel so insignificant as your eyes scan the beauty of the rugged trail or twisting mountain stream? As you search sincerely for the many answers a great wave of anticipation fills your soul.

First of all, you understand that each man's hunting experience is unique and means something special. Therefore, the purpose of the trip could be a hundred different reasons. Some only feel a yearning, but cannot explain it. You ask, though, could it be to get away from pressing business or personal problems, in order to receive a new perspective of them—and then make a clear decision?

Is it to just take a short break, by stealing away from the good wife and family for awhile, or is it. to share and mold a lasting companionship with your son you brought along? Did you come here to bag a big trophy which you can boast or tell about on a cold winter evening or some future time when you may not be as active as you are now? Is it just your love for the great outdoors? The fellowship and fun of just being with friends? The thrill of killing an animal? Do you enjoy just tramping through the woods as you did when you were a boy and does such an experience bring back fond boyhood memories? Is it your search for understanding of others and yourself? Is it the minded world, with all of its cold-war threats, good mental health attributes a trip like this of-

Your letter dated February 16, 1961, has been received, and the interest which prompted your communication is indeed appreciated.

Con response to your inquiries, I am enclosing a copy of "Communist Target - Youth" which is my report to the Committee on Un-American Activities; United States House of Representatives, concerning the rioting which concurred during hearings conducted by that Committee in San Francisco, California, in May, 1960. I am sure you will agree after reviewing this pamphlet that it clearly illustrates the communist tactics and strategy involved in these disturbances. This pamphlet contains all the information I am at liberty to disclose concerning this matter; and I am, therefore, unable to comment upon the statement to which you refer or furnish the additional information you requested.

I am, however, enclosing some material concerning the menace of communism in this country available for general distribution by the FBI which you may like to read.

#### NOTE ON YELLOW:

Correspondent in referring to the riots in San Francisco quotes former Congressman Donald L. Jackson as stating that more than 20 of the students arrested in the riots were disclosed to have had prior records of association with communist front organizations. Correspondent requests to be advised if the FBI has evidence supporting this accusation and, if so, if we could be specific on the number of the students on which there was subversive evidence. He states he does not believe any intelligent citizen can accept these charges without substantial evidence in support of them. Bufiles contain no identifiable information concerning the correspondent.

The San Francisco Office has reported that of the 68 persons arrested in connection with the riots, 28 had records of some type of subversive affiliation. "Communist Target - Youth" reports that 68 persons were arrested; however, we have made no public statement concerning the number of individuals having subversive affiliations.

The following items of literature in addition to "Communist Target - Youth" were sent to the correspondent:

- 1. "What You Can do to Fight Communism and Preserve America."
- 2. "America Freedom's Champion."
- 3. "One Nation's Response to Communism."
- 4. "Communist Illusion and Democratic Reality."

#### Gentlemen:

In regards to the student "riots" against the H.U.A.C. in San Francisco last May; Mr Donald L. Jackson, past Representative of California, said in "The Standard Oiler" November 1960 issue that "More than 20 of the 70 students arrested (for participation in the riots) were disclosed to have had prior records of association with and activities on behalf of communist front organizations. Several of the students arrested were second generation communists, ..."

I would like to know if your bureau has evidence supporting this accusation and, if so, could you please be specific on the numbers of the above students on which there is conclusive evidence that they are members of the communist party.

I do not believe any intelligent citizen can accept these serious charges without substantial evidence in support of them. 'Therefore, I shall appreciate any facts you can offer on this subject.

Thank you.

Communist Target- Youth

Dear Mr. Hoover:

Please inform us as to how many registered communists there are in the U.S? Also, about how many train@es and sympathizers here?

Why can't we send all Communists back home? Actually, we feel that through them knows more than we do as to what is going on in our Country.

If we broke diplomatic relations and with proper economic pressure, they would not be able to send their money all over the workd today.

We hear that 50% of their population is on farms and they can't feed them selves, as against 10% here and we have enormous surpluses.

Some day the WEST will wake up to the fact that we can not fight Russia or they can not fight us, meaning that we would only burn each other up.

Then the solution is economic squeeze which will cause internal revolutions and freedome for all. Hungary and Poland have shown that they will fight and we should have used Radio Free Europe so that Revolt would have started also in Russia and all satilites at once.

The only Communists who give us trouble are the ones which try to argue with in the U.N.

Thanks for the above information.

Dear Brother

I have received your publicity, showing you have booked "Operation Abolition" for showing January 14th. At least one Pastor called our office, because he had read the statement on page 14 of the Christian Century for January 14th. He asked me pertinant questions.

My advise had to be something like this:

"I don't know who in your Church ordered this film in the honest

presumption that it would be constructive and Christian. But whoever

did made a deadly mistake. If I were in your place, I would no more

subject the minds and hearts of my people to this terrible film

than I would invite Castro to preach in my pulpit.

May I beg you as one of the fellow Church workers of our city, to neither show this film, nor lend your name and influence to its appearance to any audience of our city.

Please excuse me for feeling compelled to

express to you my mind about this, because you have been and are

being trusted by Youth and by their Parents. This film is a travesty.

OPTIONAL FOREL NO. 10 UNITED STATES GOV emoranaum DeLoach Mr. A. H. Belmont Malone McGuire DATE: February 16, 1961 Rosen Trotter W. C. Sullivan ?"COMMUNIST TARGET--YOUTH" SUBJECT: Reference is made to the memorandum from Mr. DeLoach to Mr. Mohr dated February 14, 1961, in captioned matter advising that of the House Committee on Un-American Activities (HCUA), had be called and said that on page two of the attached booklet, "Communist Target--Youth," under the section entitled. "The Pattern in Cuba" they would like very much to add the specific names and the dates of two youth meetings. The two were identified as Juventud Socialista, Fourth Congress of, April 4-10, 1960, Havana, Cuba; and the Socialist Youth Conference held at Havana in 1960. HCUA desires to add this material to the pertinent paragraph when it reprints the booklet again, if the Bureau has no objections. The meeting referred to as the Juventud Socialista is identified in Bureau files as the Fourth Congress of World Socialist Youth, which was held in Hayana as indicated in referenced memorandum early in April, 1960. It was this meeting which the material in page two of "Communist Target--Youth" refers to. There is no reason why the specific names and dates of the meeting could not be inserted in the Director's statement when the booklet is reprinted. Bureau files contain no record of the so-called Socialist Youth Conference as such. This is believed to be what is identified in Bureau files as the Latin American Youth Congress, which was held in Havana, Cuba, from July 27 through August 6, 1960. If this is the meeting HCUA refers to as the Socialist Youth Conference, it would be inappropriate to make any mention of this in the Director's statement "Communist Target--Youth" since that statement was written and published prior to the dates on which the Congress actually was 62-106289-19 700 REC- 44 held. In addition, it is to be noted that the HCUA has been the center of tremendous controversy in connection with the San Francisco riots and has been forced to admit to some distortion in the preparation of the film "Operation Abolition." "Communist Target—Youth" was prepared by the FBI to emphasize the highly organized tactics employed in one situation to dupe young people into unlawful and unthinking action. If you analyze this report, you will see that its purpose was not to defend the activities of the Committee nor does it cast doubt on the motivation or loyalty of American youth. Its intent was to serve as an urgent encouragement to young people to learn the true nature of this malevolent conspiracy and, armed with this knowledge, to resist being deceived by the communists. A lack of understanding is dangerous in that it often is responsible for the reprehensive and indiscriminate labeling as communists those who merely dissent or advocate unpopular or unorthodox views. When fully cognizant of the aims and objectives of communism, we can share in the opportunity to defeat it with the weapon it fears most—truth. I am enclosing a copy of the report in its entirety for your ready reference, together with several other reprints on the general subject which you may like to read.

The film, "Operation Abolition," was distributed by the House Committee and "Communism on the Map" was prepared by the National Education Program, Searcy, Arkansas. The FBI had no connection with the preparation or distribution of either.

The jurisdiction of the FBI, as an investigative agency, does not extend to furnishing evaluations or comments relative to the character or integrity of any individual, organization or publication. I trust my comments will be of help to you, and I am glad that I could assist you.

What You Can Do To Fight Communism

Director of the Federal Bureau of Investigation United States Department of Justice Washington, District of Columbia

Dear Mr. Hoover;

This letter hav be one of hundreds which you recieve each day, but to me it is of utmost importance. I am writing to you, to possibily obtain the answers to, questions which have come to my mind as a result of lectures which our class received in school from our United States, and also World History teachers. If you could answer them for me and provide sufficient information to unhold those enswers, I would be very grateful. I would then, in turn, like to give this information to the teachers to read.

As I have mentioned, they have lectured to our class, mostly against the movies "Communism on the Map" and "Operation Abolition", but now against your report, which I have receintly given to them to read.

This was the report by you on "Operation Abolition" (subtitle) "Corrunist Target -- Youth"; which was printed in the "Catholic Northwest Progress"; on the incident which occurred during the House Committee on Un-American Activities hearings, San Francisco, Mav 12-14, 1960.

The teachers reaction to the film, causes the first

a parallel between the students, who were demonstrating against the so called abuse of our civil rights, with the communist inspired group of people? I believe that if you did, then you had a reason, and if you didn't, I will be sure to mention to them that they have the wrong idea of hat you tried to say. I found no parallel.

I feel it o ly fair to tell you at this point; for I would like to be told if I was asked questions as the above; that I am not trying to catch you or anything else like that, but would like to be able to defend my statements against those teachers with some written proof: for they seem to only listen to statements hich are backed up with pages of proof. I would like to say that I was not coached to write this letter by anyone or thing, except my own desire for Imore knowledge. Also I would like to say that there are a number of persons the have been arroused to the situation, primarly because I came home after the first lecture, and discussed the problem with my folks. From there, e just let it hang until the time came then your article appeared in the paper. Then the "American Legion" to which my father belongs, was exposed to the problem, from my father. Thus you can see that in our family; which consists of my parents, three brothers, and two sisters; we are very much opposed to Communism. All of my brothers, and sisters are younger than I am, and you can see "hy, again, "e will do more than our share to fight Communism. Incidently, I am a

b6 b7C In case you may be wondering, yes, I have talked to the principal, but it was of no advantage, for he said that he was against the two films also. I have not yet talked to him about your report, but my father and others have talked to the Juperintendent of the District, and he refused to discuss your report, and refuses to believe that the teachers in the school are talking against those films.

Other people who we know from church have been trying to get some people interested in this; but, so far, they have run into much apathy. Nevertheless, they are still working on the problem, and, speaking for them, I know that they would be very grateful to you also, if we had information on the following questions present in our community.

Please remember in reading and answering these questions that they are my own. They are questions which came up in my mind while listening to lectures. They were partially answered, but in my estimation, not the least clear and precise. Thus I turn to a person who has the judgment and wisdom which I can rely on to answer completly and clearly all of my questions.

If some of the youths who demonstrated were opposed to the so called abuses of our civil rights, were they right in their convections, according to the American "Tridition"? What are the so called abuses which the committee has inflicted upon our civil rights? What proof can be offered to prove that the Communists were responsible for the students being there?

Is this committed egal? How has it been authorized?

Is it constitutional? Is the way it is run constitutional?

Are the objections in the way it is run, or in the way it

"misuses" a persons rights? What are the limits to the in
vestigation of a person by the committee? What is the main

purpose of the House of Un-American Activities?

What is the relation, simularity, or difference between this committee and the one which Senator Joseph McCarthy of Wisconsin started? Why was Senator McCarthy censored?

It was also brought up that the Quakers, which one teacher said, sponsored part of the student demonstration. I have learned from my dad, that the "American Legion" always checks up on groups who do such things, and I therefore would like to know what sort of record this group has. The teacher said there are no cleaner groups then the Quakers, and I have heard so much from him which is unreliable, that I doubt him.

Could you also, sir, tell me the names of the companies who put out the films "Operation Abolition" and Communism on the Map"?

I do hope to hear from you in a short time, for I think that we had better let the people know the truthes about Communism before it is too late. I am sorry that I took up so much of your time, sir, but I could not compress my feelings on the matter into any short note, like I had planned to do.

I really believe in democracy and freedom, and want it to be spread throughout the world, but it will not be with all of the slubborness, ignorance, and apathy which we meet in our everday life with fellow Americans.

I am sorry again that I have taken up so much of your valuable time, but I know that you and I both believe in what this country is, and what it is doing. Thank you for your time and patience.

Sincerely yours,

b6 b7C
